

FALL 2024
Commencement

Greetings from the President

On behalf of the University of Florida, our faculty and our entire university community, I would like to extend my deepest congratulations to you, the graduates of 2024.

Today's ceremony celebrates your remarkable accomplishment in earning a degree from one of the nation's very best public universities. I applaud you for your years dedicated to honing your scientific, creative and analytical skills, and for your resilience and persistence in earning your degrees. I join you in thanking your professors, mentors and the family and friends who have supported you.

Today is a day for celebration and for anticipation of your bright future ahead. I'm confident that the experience you had at UF, and the knowledge you gained, will serve you well in life, whatever career or path you choose next.

The university has benefited from having you here, and from your contributions to your classes, majors and peers. We are grateful to you. We hope that you will look back on this period with fondness and appreciation, and that you will remain connected to UF as active members of our distinguished alumni.

Best wishes, and always remember: It is Great to be a Florida Gator!

W. Kent Fuchs

University of Florida President

Dr. W. Kent Fuchs

Dr. Kent Fuchs began serving as Interim President of the University of Florida August 1. A professor in the UF Department of Electrical and Computer Engineering, he was the university's 12th president from 2015 to 2023.

Dr. Fuchs led UF into the ranks of the nation's best public universities during his tenure, with the university's stature increasing more than any other research university in the nation. Among other advancements, UF topped \$1 billion in annual research, surpassed \$4.6 billion in philanthropy, and created and filled more than 600 new faculty positions, establishing national prominence in artificial intelligence and other areas of strategic importance.

Previous to the UF presidency, Dr. Fuchs was provost of Cornell University. He also served in academic leadership positions and as a faculty member of electrical and computer engineering at Cornell, Purdue and the University of Illinois.

He has been elected fellow of the American Academy of Arts and Sciences, the American Association for the Advancement of Science, the Institute of Electrical and Electronics Engineers and the Association for Computing Machinery and has received numerous awards for teaching and research.

He earned his doctorate in electrical and computer engineering from the University of Illinois, and a Master of Divinity from Trinity Evangelical Divinity School. He also holds a Bachelor of Science in Engineering from Duke University.

UNIVERSITY-WIDE COMMENCEMENT AGENDA

DECEMBER 13, 7:00 P.M. | DECEMBER 14, 9:00 A.M., 2:00 P.M., 7:00 P.M.

Presiding	W. Kent Fuchs, <i>Interim President</i>
Processional	UF Commencement Band
National Anthem	Allison Reade, <i>Vocalist</i> , and UF Commencement Band
Welcome	W. Kent Fuchs
Introductions	Joseph Glover, <i>Interim Provost and Senior Vice President for Academic Affairs</i>
Distinguished Alumnus Awards*	
Presenter	Elaine Turner, <i>Dean, College of Agricultural and Life Sciences</i>
Recipient	Michael Joyner, <i>President, Florida Fruit & Vegetable Association</i>
Presenter	Sabyasachi Mitra, <i>Dean, Warrington College of Business</i>
Recipient	William Alcorn, <i>Retired Senior Vice President, Controller and Chief Procurement Officer, JCPenney Company</i>
Presenter	Glenn E. Good, <i>Dean, College of Education</i>
Recipient	Lawrence S. Feldman
Alumni Association Remarks	Jess J. Johnson, <i>President, UF Alumni Association, Inc.</i>
Commencement Address	Rob Ferl, <i>Distinguished Professor, Inaugural Director of the Astraeus Space Institute and Assistant Vice President for UF Research</i>
	Anna-Lisa Paul, <i>Professor, Director UF Interdisciplinary Center for Biotechnology Research</i>
Presenting Candidates for Degrees	Joseph Glover
Conferring of Degrees	
December 13, 7 P.M.	Mori Hosseini, <i>Chair, UF Board of Trustees</i>
December 14, 9 A.M., 7 P.M.	W. Kent Fuchs
December 14, 2 P.M.	David L. Brandon, <i>Member, UF Board of Trustees</i>
Recognition of Graduates	
Closing Remarks	W. Kent Fuchs
Alma Mater	Allison Reade and UF Commencement Band
Recessional	“I Won’t Back Down” ©1989 Written by Tom Petty and Jeff Lynne Performed by Tom Petty Album: <i>Full Moon Fever</i>

*Distinguished Alumnus Awards will be presented during the respective college’s ceremony.

COMMENCEMENT SPEAKERS

Anna-Lisa Paul, Ph.D.

Professor

Director of UF's Interdisciplinary Center for Biotechnology Research

Often working in partnership with her UF colleague, Dr. Rob Ferl, Anna-Lisa Paul has launched 12 orbital experiments to study how plants respond to the spaceflight environment.

She has taken her science to the extreme terrestrial environments of the Arctic and Antarctica as planetary analogs, and worked with lunar dust retrieved during the Apollo era, to evaluate plant molecular responses to that novel environment. Working with Ferl, she uses suborbital launch vehicles to explore the effect of the transition to space on the molecular processes of plants.

She has been active in the spaceflight research community for over 25 years and has served as the President of the American Society for Gravitational and Space Research, as a member of the ISS Standing Review Board, on NASA's GeneLab Science Council, and on the Suborbital Applications Research Group advisory board for the Commercial Spaceflight Federation. She serves on the National Academies of Science Engineering and Medicine Committee on Biological and Physical Sciences in Space, and as Co-Chair for a NASEM Panel on A Science Strategy for the Human Exploration of Mars.

Paul is a recipient of the NASA Medal of Honor for Exceptional Scientific Achievement. She is a Fellow of the American Association for the Advancement of Science and a Fellow of the American Society for Gravitational and Space Research.

Paul believes that humans are explorers—and when we leave Earth's orbit, plants will help us make the journey.

Rob Ferl, Ph.D.

Distinguished Professor

Inaugural Director of UF's Astreaeus Space Institute and Assistant VP for UF Research

Rob Ferl studies gene expression in response to environmental change. For the last 20 years, he has focused on gene expression in space, often in collaboration with his UF colleague, Dr. Anna-Lisa Paul.

Ferl co-chaired the steering committee for the current Decadal Survey of Biological and Physical Sciences

Research in Space for the National Academies of Sciences, Engineering, and Medicine and is a past president of the American Society for Gravitational and Space Research.

Among his honors are the NASA Medal of Honor for Exceptional Scientific Achievement, the NASA Medal of Honor for Exceptional Public Service, and the AIAA Jeffries Aerospace Medicine and Life Sciences Research Award.

While a dedicated lab geek, he enjoys and advocates for the field experiential side of science.

He, Paul, and other collaborators have flown with their experiments on many research aircraft to study aspects of the microgravity environment and to develop hardware for understanding biological effects of spaceflight. They have worked with NASA astronauts to conduct experiments on the Space Shuttle and the International Space Station, that have shown that plants turn certain genes on and off in response to living in space.

He and Paul were the first to prove that plants could grow in lunar dust collected during the Apollo missions.

In August 2024, Ferl became the first NASA-funded academic researcher to conduct an experiment as part of a commercial space crew on a mission of Blue Origin's New Shepard rocket.

Distinguished Alumnus Award

Michael Joyner

President

Florida Fruit & Vegetable Association

Growing up in Wildwood, Florida, provided Michael Joyner with mentors in the farming and ranching industries—people who demonstrated their dedication to providing food and fiber to the world. Their commitment to agriculture and serving others became his passion, too.

During Joyner's first semester at the College of Central Florida, he met with an adviser, where he shared his desire to help Florida agriculture in his future career. The adviser immediately called the UF College of Agricultural and Life Sciences (CALs), part of the Institute of Food and Agricultural Sciences (IFAS). With an interest in public policy, agriculture, and natural resources, Joyner transferred to UF to major in food and resource economics through CALs. This was a jumping-off point for his almost 40 years of service to Florida agriculture and natural resources.

Joyner has served as a voice for the Florida Farm Bureau Federation, the Florida Forestry Association, the Florida Department of Environmental Protection, and Progress Energy (now Duke Energy). During his eight years as assistant commissioner of agriculture and chief of staff for Florida Agriculture Commissioner Adam Putnam, Joyner provided day-to-day leadership, strategy, and oversight of the department's more than 4,000 employees and interacted directly with Florida farmers, ranchers, environmental leaders, legislative and community leaders, agency heads, cabinet members, and others.

As president of the Florida Fruit and Vegetable Association since 2018, Joyner leads its

operations, overseeing the association's work in the areas of advocacy, labor, food safety, water and natural resources, crop protection, transportation, and trade, issues of importance to all Floridians. Joyner currently serves on the Agricultural Policy Advisory Committee (APAC) to the U.S. Department of Agriculture and U.S. Trade Representative; the Center for Produce Safety Board of Directors; the University of Florida Leadership and Education Foundation, Inc.; and several other state and national industry boards, committees, and advisory groups.

Joyner has been recognized as one of the most influential business leaders in Florida agriculture for five consecutive years in Florida Trend's Florida 500. He was recognized with the CALs Alumni and Friends Award of Distinction in 2019 and was a member of Class I of the UF/IFAS Wedgworth Leadership Institute for Agriculture and Natural Resources.

Distinguished Alumnus Award

William Alcorn

*Retired Senior Vice President,
Controller and Chief Procurement Officer
JCPenney Company*

William J. (Bill) Alcorn joined the JCPenney Company in 1971 and held several positions of increasing responsibility in the company's auditing, credit, and controller departments. Bill's 37-year career at JCPenney was marked by numerous contributions that greatly supported the efficiency of the company's operations. Bill retired in 2008 from JCPenney Corporation as senior vice president, controller, and chief purchasing officer.

In 2000, he was named the Institute of Management Accountants (IMA) Financial Executive of the Year for the IMA's Texas Regional Council. It is the highest award given to an individual within the IMA organization. He was a director at CONTACT Crisis Line, a former chair of the American Institute of Diversity and Commerce (AIDC), and a member of the American Institute of Certified Public Accountants (AICPA), the Financial Executives International (FEI), and the Texas Society of Certified Public Accountants (TXCPA).

Since junior high, Bill was determined to attend the University of Florida. As the first in his family to attend college, Bill needed to earn a scholarship to attend UF. Bill promised himself that if he was ever successful enough, he would fund scholarships to give back to students like himself. His success inspired Bill to give to UF and led to his establishing scholarships for students in the Warrington College of Business, the Machen Florida Opportunity

Scholars program, and an endowed annual lecture series in the UF College of Nursing. Bill and his wife, Patti, have also funded hi-tech medical teaching equipment at the UF College of Veterinary Medicine.

In addition to UF, Bill and Patti have many philanthropic interests, including the Women's Business Enterprise National Council (WBENC), which focuses on women and minority-owned businesses, the Dallas Zoo, and the North Texas Food Bank. In 2009, the William J. Alcorn Award was established by the WBENC to honor Bill as its first chair and to recognize his exemplary leadership contributions in support of the organization's mission to open the doors of opportunity in corporate contracting to certified women's business enterprises.

Distinguished Alumnus Award

Lawrence S. Feldman, Ph.D.

Dr. Lawrence (Larry) Feldman served the Miami-Dade County Public Schools system for 47 years, having taught at several elementary schools and worked his way up to assistant principal, principal, and regional director.

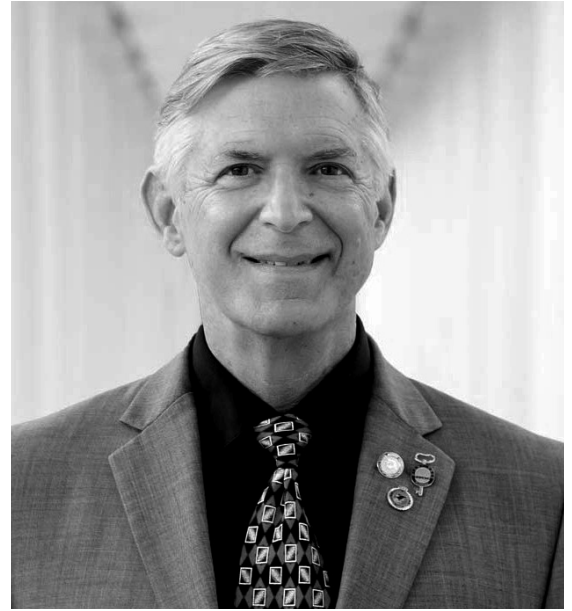

Re-elected to the District 9 school board in 2012 and again in 2016, Larry's work led to many accomplishments. Some of the items he successfully sponsored included ensuring each middle and high school was staffed with a school board police officer to enhance student safety and instituting the Sandy Hook Promise's "Say Something" gun-violence prevention programs and the codification of active shooter lockdown protocols.

His contributions were not limited to safety protocols but also included health initiatives.

He partnered with Nicklaus Children's Hospital to strengthen policies related to head and brain injuries, ensured all district high school athletes could receive free EKG screenings to prevent sudden cardiac death, and adopted mindfulness practices for administrators, teachers, and employees.

Because of his innovations in public education, Larry was able to become a senior member of several foundations and university teams, including The Principal Centers at Harvard University's Graduate School of Education, which gather school leaders from around the world to engage in professional learning experiences, University of Oxford's Round Table, and the Panasonic Foundation.

He is an executive board member of the Council of Great City Schools, past president of the Greater Florida Consortium of School Boards, and a board member of Drug Free

Youth in Town, the Education Fund, Florida School Board Association, FBI Miami Citizens' Academy Alumni Association, and the Children's Survival Network.

Larry has been the recipient of numerous awards and honors for his educational work and ongoing public service with the multi-cultural and economically diverse communities throughout Miami. He has been honored with the Green-Garner Urban School Board Member of the Year Award from the Council of the Great City Schools, the South Dade Community Leadership Award, Jose Marti Community Service Award, Mexican American Council Community Award, and the South Florida After-School All-Stars Award.

Born in Miami, Larry earned a bachelor's in elementary education and a master's in special education from the University of Florida and a Ph.D. in educational leadership/systemic reform from The Union Institute and University of Cincinnati.

RESEARCH AWARDS

UNIVERSITY RESEARCH SCHOLARS PROGRAM

The University Research Scholars Program is a 4-year research preparation and experience program offered to the top 2% of entering first-year students annually.

Chain of Office

This custom-made ornament is worn with the president's regalia, symbolizing the authority and responsibilities of the office. The chain is engraved with the names and service years of the university presidents. The medallion's centerpiece is a 1.3-carat diamond.

Academic Mace

Dating back to the Middle Ages, the mace symbolizes strength and authority. The UF ceremonial mace was created for the university's sesquicentennial celebration in 2003. The 70-inch staff features an alligator sitting atop a globe. The four pillars supporting the globe represent the four original colleges: Agriculture, Engineering, Law, and Liberal Arts. The staff is carved from cherry wood. The university's chief marshal, who leads all academic processions, carries the mace.

Diplomas

Diplomas will be mailed to the graduates' diploma mailing address in February of 2025.

Caps and Gowns, An Explanation

The academic regalia worn by graduating students and faculty in this era evolved from a style of dress worn by members of guilds and religious orders in medieval times. The academic gown is worn by individuals who have earned a degree in higher education. In addition, hoods are worn by graduate degree candidates but not by undergraduate degree candidates.

At the University of Florida, the lining of the hood has a blue chevron on an orange background to represent the university colors. University faculty members who hold degrees from another college or university wear the colors of their alma mater.

The velvet edging on the academic hood is the color that represents the particular degree held by the wearer. Agricultural and Life Sciences and Forest Resources and Conservation share maize edging; Design, Construction and Planning and Building Construction are lilac; Audiology degrees have colonial blue edging; Business Administration and Accounting are the color drab; Dentistry is lilac; Education is light blue; Engineering degrees are represented by orange edging; Fine Arts degrees have brown edging; Health and Human Performance is sage green; Journalism and Communications is garnet; Law is purple; Liberal Arts is white, and Liberal Sciences is gold yellow; Medicine is green; Music is pink; Natural Resources and Environment is antique gold; Nursing is apricot; Doctor of Occupational Therapy is slate blue; Doctor of Pharmacy is olive; Philosophy is royal blue; Public Health degrees have salmon pink edging; Rehabilitation Counseling degrees have Nile green edging; and Veterinary Medicine is gray.

Distinctions among sleeves indicate the type of degree held by the wearer. A long, pointed sleeve indicates a bachelor's degree, while a long, closed sleeve with a slit near the upper part of the arm designates a master's degree. A round, open sleeve identifies a doctoral degree.

The blue doctoral regalia also has velvet running on the rest of the gown, including crossbars on the sleeve. Colored tassels on the degree candidates' caps indicate a candidate's school or college.
