

COMMENCEMENT

UF

COMMENCEMENT

FALL 2014

111TH CEREMONY

Dr. J. Bernard Machen

In more than a decade as president of the University of Florida, Bernie Machen has grown and enhanced the university while putting it on a path to rise among the best public universities in the nation.

President Machen has expanded UF's research operation, elevated its educational programs and increased access for students from a diversity of economic backgrounds. He has bolstered the university's commitment to innovation, grown its endowment, and led a noted universitywide sustainability initiative.

Additionally, in 2013, President Machen launched UF on the nearly \$1 billion UF Preeminence Plan to rise among the nation's top public universities. As part of that plan, the university is hiring an estimated 120 new faculty members, with 40 hires already completed by summer 2014. The new faculty members, most of whom are at the midcareer level, are expected to help advance UF research in 26 areas of promise. The Preeminence Plan is supported by \$150 million in combined state-university dollars and an \$800-million fundraising campaign.

Milestones of President Machen's tenure include:

- Growth in annual research funding from \$470 million in 2003-04 to \$641 million in fiscal year 2013.
- More than 3.1 million square feet in new construction on campus, including more than 628,000 square feet of new research space.
- Completion of UF's \$1.7 billion capital campaign in 2012, at the time the sixth-largest public university campaign in history.
- The Machen Florida Opportunity Scholars program, enabling the enrollment of more than 2,900 first-generation college students, with about 1,500 graduates so far.
- Development of the 40-acre public private partnership known as Innovation Square and the Innovation Hub technology incubator now housing more than two dozen spinoffs.
- Creation of the Bob Graham Center for Public Service, Claude D. Pepper Older Americans Independence Center, the UF Water Institute and other key university institutes and centers.

President Machen also significantly strengthened UF's hospital and health science research operations, bringing together the UF Health Science Center and Shands Hospital under UF Health. He has added several major new medical research and care facilities, including the Biomedical Sciences Building, the Clinical and Translational Research Building and the UF Health Cancer Center. And he launched UF's first major medical research facility outside Gainesville, the UF Research and Academic Center at Lake Nona's Medical City near Orlando.

His educational enhancements include the spring-summer Innovation Academy for entrepreneurially-minded undergraduates; "What is The Good Life?", the first of an anticipated four core classes forming a signature undergraduate curriculum; and the launch and growth of UF Online, one of the first programs in the nation to offer four-year fully online undergraduate degrees.

Prior to his arrival at UF, President Machen served for six years as president of the University of Utah, where he is credited with expanding the university's health sciences program, stabilizing the university's finances and bolstering diversity.

From 1995 to 1997, he was provost and executive vice president for academic affairs at the University of Michigan, and from 1989 until 1995, he served as dean of Michigan's School of Dentistry. From 1983 to 1989, he was professor and associate dean at the University of North Carolina Chapel Hill's School of Dentistry.

President Machen is a past president of the American Association of Dental Schools. He also served as a member of the board of trustees of the Salt Lake Olympic Organizing Committee. His additional positions in national higher education leadership include serving as a member of the National Security Higher Education Advisory Board; chairing the board of directors of the National Campus Compact and serving as president of the executive committee of the Southeastern Conference and chair of the Southeastern Conference Academic Consortium.

A native of Greenwood, Miss., President Machen grew up in St. Louis. After attending Vanderbilt University for his undergraduate studies, he earned his doctor of dental surgery degree from St. Louis University and his master's degree in pediatric dentistry and doctorate in educational psychology from the University of Iowa. He and his wife, Chris, a former neonatal intensive care nurse, have two sons, a daughter, and four grandchildren.

Greetings from the President

On behalf of the University of Florida administration, faculty and staff, I want to extend my most heartfelt congratulations to you, the Class of 2014, and to your family and friends. Today's ceremony celebrates your hard work and achievement in completing a demanding and rigorous course of study at this great public research university. You should be proud, as should all who supported and assisted you in your efforts.

This is a day of celebration, but it also is a day of reflection on what lies ahead. Whatever path you choose, I am confident you have acquired the skills you need to be a success. Whether you pursue a career in public service, private industry, academe, the sciences or the arts, I know you will make a difference.

It has been a privilege and a pleasure to host you during your academic career. You have learned much, and this university has benefited in turn from your presence. I hope you will recall your years here with a sense that they were both happy and productive. As a member of UF's distinguished alumni, you will always be cherished at the University of Florida.

Good luck and best wishes!

A handwritten signature in blue ink that reads "J. Bernard Machen". The signature is written in a cursive style.

J. Bernard Machen

Commencement Agenda – Saturday, December 20, 10:00 a.m.

Presiding	J. Bernard Machen <i>President</i>
Processional.....	Gainesville Brass Quintet
National Anthem.....	Anthony Offerle Gainesville Brass Quintet
Welcome and Introductions.....	J. Bernard Machen
Presentation of Distinguished Achievement Awards Presented by	Michael Good <i>Dean, College of Medicine</i>
College of Medicine	Judy Davis <i>Jacksonville, Florida</i>
College of Medicine.....	Arlan Rosenbloom <i>Gainesville, Florida</i>
Alumni Association Remarks and Presentation of Awards	Suzanne Norris <i>President, UF Alumni Association, Inc.</i>
Outstanding Four-Year Scholar College of Liberal Arts and Sciences	Juan Serrano
Outstanding Two-Year Scholar College of Liberal Arts and Sciences	Grant Simpson
Outstanding Student Leaders Warrington College of Business Administration	Zachary Kandel
Warrington College of Business Administration	Alison Sanchez
Presenting Candidates for Masters and Specialist Degrees.....	Henry T. Frierson <i>Dean, Graduate School</i>
Conferring of Masters and Specialist Degrees.....	David L. Brandon <i>Member, UF Board of Trustees</i>
Presenting Candidates for Undergraduate Degrees	Bernard Mair <i>Associate Provost, Undergraduate Affairs</i>
Conferring of Undergraduate Degrees.....	David L. Brandon
Alma Mater	Anthony Offerle Gainesville Brass Quintet
Postlude	Gainesville Brass Quintet

ADDITIONAL COPIES of this commencement program are available while supplies last at the University of Florida Bookstore for a \$1 donation to the Machen Florida Opportunity Scholars program, which helps fund a UF education for low-income students who are first in their family to attend college. The bookstore is located in the UF Bookstore and Welcome Center on Museum Road and is open daily. For hours, please see the website at www.bsd.ufl.edu/bookstore. The commencement program can be ordered online with an additional charge for shipping and handling.

THE UNIVERSITY OF FLORIDA encourages you to add #UFGrad to your commencement-related conversations and images on social media. Select tweets will be featured on the video boards prior to and after the ceremony.

THE PRE-COMMENCEMENT MOVIES titled "Dream Machine" and "Voyage to Tomorrow" were created by the staff and students of the UF Digital Worlds Institute with original music by resident composer James Oliverio. For more information on these movies, which are available on DVD, please visit the institute's website at www.digitalworlds.ufl.edu.

Commencement Agenda – Saturday, December 20, 2:00 p.m.

Distinguished Achievement Award

Judy S. Davis

Judy Davis is a native of Oneida, Tenn. and earned her bachelor's degree in elementary education from Tennessee Technological University. After relocating to Jacksonville, she and her husband, the late Jerry Davis, began several successful communications and information technology companies. After their retirement, both Judy and her husband invested effort, money and time to support a variety of civic organizations.

Mrs. Davis and her family's philanthropy began more than a decade ago with a donation that was matched by the state to jumpstart UF's cancer treatment program. The Judith S. and Jerry W. Davis Cancer Center was named in 2000 and houses outpatient cancer care at the UF Health Science Center's Gainesville campus. The four-story, 115,000 square-foot ambulatory building includes clinics providing treatment in radiation oncology, adult oncology-hematology and skin cancer. They also gave the largest gift ever made to UF Health to create the Davis Cancer Pavilion.

Motivated by their first-hand knowledge of the personal toll of a cancer diagnosis, the Davis family has become one of the most well-known cancer fighters in Florida and remain dedicated to assuring that cancer patients have the best possible treatment and improved outcomes.

The family's generosity to improving health care - specifically the treatment of lymphoma, breast cancer, bone marrow and gastrointestinal cancers - extends beyond their donations. Mrs. Davis served on the Cancer Center's Community Advisory Board, and her husband served on the Shands HealthCare Board of Directors and was chair of the UF Foundation Board. Their son, Troy, currently serves on the UF Foundation Board.

Mrs. Davis valued her education at Tennessee Tech University and continues to show her support. Her hometown of Oneida is rural with a median income well below the state average. High school graduates there often cannot afford to attend college, but this is changing, thanks to a scholarship program established by the Davises.

Mrs. Davis' selfless generosity and dedication to UF Health has resulted in cutting-edge cancer research and care, for which the University of Florida will always be grateful.

Distinguished Achievement Award

Arlan Rosenbloom

Children around the world are healthier, thanks to Dr. Arlan Rosenbloom.

As an internationally recognized pioneer in pediatric endocrinology and diabetology, Dr. Rosenbloom is known for identifying clinical findings others have missed, successfully challenging established ideas and being an ethical voice in diabetes and growth research.

Dr. Rosenbloom arrived at UF in 1968 as the university's founding pediatric endocrinologist. He was quickly promoted from assistant to associate professor because of his groundbreaking field reports while working with the U.S. Public Health Service as an epidemiologist in the West African Smallpox Eradication and Measles Control Program in the Centers for Disease Control.

Dr. Rosenbloom has authored and co-authored nearly 380 articles and 83 chapters in books during his career. His work has been cited nearly 10,000 times since 1974. He is credited with developing guidelines for early diagnosis and treatment of type 2 diabetes in children and adolescents. He was the first to describe a limited joint mobility syndrome in children with diabetes. His work changed what academics thought about type 2 diabetes in youth, showing in his research that this form of diabetes is as severe and serious as type 1.

Other leaders in the field describe Dr. Rosenbloom's research during his world travels as having a significant impact on medicine. On one such occasion in South America, he worked to improve the overall well-being of a population of Ecuadorians with growth hormone-resistant dwarfism.

In addition, Dr. Rosenbloom also has served UF's College of Medicine. After creating the pediatric endocrinology program, he led it to become one of the top 15 in the nation. He also served as assistant director, associate director and director of the NIH General Clinical Resource Center, taking it from a probationary status to being nationally ranked. He is a graduate of the University of Wisconsin and lives in Gainesville and St. Augustine.

Awards to Outstanding Scholars

The Selection Committee for Outstanding Scholars considers grade point average, curriculum, academic awards, research projects or honors thesis. Four-year scholars must have started as freshmen at UF and have no more than minimal work at other institutions.

Nhi M. Do
Four-Year Scholar

There is no doubt that people around the world have become healthier during Nhi Do's time at UF.

She provided direct care and rehabilitative therapy to patients with spinal cord and brain injuries while working as a patient care assistant at UF Shands Rehab Hospital.

This work experience came after her volunteer experiences with evaluating patients at UF's Mobile Outreach Clinic to teaching individuals in homeless shelters about healthy habits, hygiene and smoking cessation. Ms. Do's efforts to better the community were mirrored in her classroom performance where she earned a cumulative 4.0 GPA. Ms. Do says her volunteerism inspires her to excel in all areas.

She spent much of last year in Central America, honing her sense of cultural sensitivity and competency. First, in Costa Rica, she was immersed in rural communities to learn about needs and assets in a developing country. She served as a vice president of the Community Health Service Corps Club and had traveled with the College of Agricultural & Life Sciences Leadership Institute Cohort to Ecuador last December on a service-learning trip to reflect on personal growth in diversity.

She will graduate with a bachelor of science in food science and human nutrition and a minor in health disparities in society. Next, Ms. Do plans to enter a graduate program in physician assistant studies in Florida. Her goal is to find time to travel to provide medical care in underserved areas.

Patrick T. Fallace
Four-Year Scholar

Patrick Fallace already has nearly a year of experience working in his field.

Last year, as an intern at General Electric Appliances in Louisville, Ky., Mr. Fallace specialized in new product integration — studying and engineering better ways to create parts. This past summer, he further enhanced his talents at Visteon Corp. where, as a technical engineering intern, he designed automotive instruments. During his internship, he also volunteered for Habitat for Humanity and helped build two homes for families.

Once school was back in session, he maintained a 4.0 GPA while supporting himself by busing tables at the Alpha Omicron Pi sorority house.

He is a member of the Beta Theta Pi fraternity. When UF funded new sustainable solar panels on his fraternity house's roof, he was motivated to lead his fraternity brothers in a volunteer effort with UF's Physical Plant Division to reduce energy costs and make more efficient use of classrooms. He also volunteered with the Gators Going Green initiative to promote sustainability on campus.

Mr. Fallace has received a letter of intent from Northrop Grumman with an offer to join its aerospace systems department after graduation. He also plans to pursue a master's degree in engineering or an MBA at UF.

Awards to Outstanding Scholars

The Selection Committee for Outstanding Scholars considers grade point average, curriculum, academic awards, research projects or honors thesis. Four-year scholars must have started as freshmen at UF and have no more than minimal work at other institutions.

Juan C. Serrano
Four-Year Scholar

Four years ago, Juan Serrano left his local immigration office with a green card and newly minted dreams. As a former undocumented immigrant living in the United States, earning a degree in medicine seemed a lofty goal. Now, with his new status, he eagerly began working to make his dreams a reality.

The results from his first laboratory project in medicinal chemistry research were published in the academic journal *Bioorganic & Medicinal Chemistry Letters*. Mr. Serrano's interests shifted during his academic career as he became knowledgeable about how small molecules could be used to explore human biology and how being a physician and a scientist could complement each other. He began taking courses in the College of Pharmacy and eventually created his own interdisciplinary studies major, medicinal chemistry and molecular genetics. Mr. Serrano entered a national competition and was selected as one of 12 students to work at the Broad Institute of Harvard and MIT with pioneers in the emerging field.

He returned to Gainesville to co-found and serve as president of the Association of Future Physician-Scientists. The group now has more than 40 members, a faculty advisory board and is affiliated with the American Physician-Scientists Association.

Mr. Serrano plans to continue his education and has applied to several medical programs. He has been invited to interview at schools including Vanderbilt, Columbia and Harvard.

Karl M. Wallace
Four-Year Scholar

Karl Wallace's decision to major in agricultural engineering doesn't mean you'll find him running a tractor or sporting overalls. But put him on a stage, and he might just don those dungarees.

During his time at UF, Mr. Wallace found a niche that includes both his skills for engineering sustainable agriculture techniques and his passion for theater. He spent a summer abroad in New Zealand studying biodiversity conservation and urban sustainability while becoming attuned to the Maori language and culture. His spring breaks were spent completing sections of the Florida National Scenic Trail and clearing vegetation and fences in the Everglades.

His interest for theater was sparked by a Shakespearean course as a freshman. It led to landing a part in "Macbeth," produced by UF's Shakespeare in the Park, and then two years of acting classes. Mr. Wallace then helped teach an acting class the following fall semester and would go on to direct the group's performance of "A Midsummer Night's Dream."

Summer internships took him to the U.S. Department of Agriculture and the South Florida Water Management District. He drew templates for wetlands reserve programs, collected samples to test for water quality and was published in environmental reports.

When he wasn't in class during the school year, he was removing invasive plants in campus woods and mentoring children who were designing toy race cars for an engineering session in Weil Hall. He managed all this while keeping a 3.99 GPA.

Mr. Wallace will begin his master of science degree in the spring.

Awards to Outstanding Scholars

The Selection Committee for Outstanding Scholars considers grade point average, curriculum, academic awards, research projects or honors thesis. Two-year scholars must have earned an Associate of Arts degree at a Florida state college and have completed the remainder of their degree at UF.

Grant G. Simpson Two-Year Scholar

Grant Simpson felt he had to prove himself the first day he set foot on campus.

Fresh out of community college, where he received top honors for outstanding work in sciences and humanities, he was anxious to gauge his performance while seeking a double major in biochemistry and neuroscience with a minor in philosophy. Success soon found him.

During his first semester here, he was invited to work in a lab studying age stereotypes and memory, and the effects of hormones on social situations. To this end, he spent a summer at the University of Texas on an undergraduate fellowship, directing human neural stem cell differentiation for regenerative medicine.

Outside the lab, he sought to help people face-to-face. He joined UF Best Buddies two years ago, volunteering as a companion to special-needs individuals through events and outings. He currently serves as activities chair and event planner for the organization. Mr. Simpson also volunteers at Haven Hospice, comforting patients and their families during difficult end-of-life transitions. He also volunteers at MentorUF, which aims to help at-risk children find tangible goals.

Mr. Simpson plans to spend the next year working at the College of Medicine's Institute for Health Disparities and would like to pursue a medical doctorate in neurology.

Kara D. Salazar Two-Year Scholar

While pursuing a degree in horticultural sciences, Kara Salazar sought to excel not only in the classroom and the greenhouse, but also in her role as a wife and mother of four children.

Ms. Salazar says her approach to life is an experimental one. Despite having four young children, she enrolled at Santa Fe College and, with the support of her family, graduated with top honors. After transferring to UF, Ms. Salazar learned of a research opportunity with Dr. Bala Rathinasabapathi, where she bred peppers to analyze how they inherit shape, color and thickness. The project yielded two research papers, and Ms. Salazar gave a presentation of her findings at the Southern Region American Society for Horticultural Science.

Despite many hours devoted to research, Ms. Salazar also served her college and community. She became a College of Agricultural and Life Sciences' ambassador in 2013 and hosted preview day, alumni events, commencement and community outreach programs. Ms. Salazar also dedicated time to feeding Gainesville's homeless as a bi-monthly volunteer chef at the St. Francis House. While there, she studied the kitchen's expenses and found a way to reduce the per-person meal costs by 35 percent. She also volunteered at Grace Fellowship Ministry to distribute meal bags to the homeless, school supply backpacks to foster children and holiday meal packages for families.

Following graduation, Ms. Salazar's goal is to establish a firm to advise on environmentally sustainable farming practices and feed the underprivileged.

Awards to Outstanding Leaders

The Selection Committee for Outstanding Graduating Student Leaders considers the quality and scope of leadership activities, universitywide leadership, experience, special awards, recognition and recommendations of faculty, staff and students.

Bradley deBorde Outstanding Male Leader

As a three-time SEC champion, five-time school record holder and top sprinter in the country, Brad deBorde proves to be unstoppable under water. The UF swimming and diving captain led his 40 teammates to their second SEC team title in 21 years and the highest NCAA finish in 23 years during the 2013-14 season. Mr. deBorde also served on the University Athletic Association Board of Directors and was president of the Student-Athlete Advisory Council, where he represented UF's 500-plus student-athletes.

But the industrial and systems engineering major has proven to his coaches, advisors and mentors that his success lies beyond the swimming pool. As an ambassador for the College of Engineering, Mr. deBorde advised nearly 1,400 students on everything from course selection to time-management skills. Last summer, he was a project manager and analyst for UF Health at Shands hospital, where his team analyzed and optimized facility capabilities in order to increase patient satisfaction. During his project at Shands, he also conducted statistical analysis in an independent research position.

Mr. deBorde believes leadership should come naturally. Those in the position to lead should be able to captivate the mind, heart and talent of those around them. Following suit, his desire to lead and make a difference extends outside UF.

The 22-year-old, from Longwood, Fla., spent more than 100 hours mentoring at-risk children at P.K. Yonge Developmental Research School in Gainesville through the CAMP Gator Mentoring program and still remains active with one of his campers today. He also participated in the Goodwill Gators community outreach program, where he was involved with several charities and organizations such as the March of Dimes and Special Olympics.

Mr. deBorde's career at UF has made a significant impact on everyone because of his commitment to hold himself to a higher standard and challenge those around him to follow this example.

Zachary Kandel Outstanding Male Leader

During Zachary Kandel's freshman year, one of his first assignments in the Warrington Welcome program was to define the word leadership. As a timid newcomer from Potomac, Md., Mr. Kandel originally wrote, "Leadership is the ability to accomplish tasks by using the resources and people around you." Reflecting on four years of success and accomplishment at the University of Florida, he now has a new definition for leadership. It includes phrases such as, "paint a picture of success" and "intrinsically inspire them toward owning a part of the future."

Throughout this management major's career at UF, his various leadership positions have shaped him into an honest, innovative and forward-thinking individual. As director of advertising for UF's student government cabinet, Mr. Kandel worked with other board members to allocate budgets, create newspaper ads and manage a team of delegates. He was later appointed to serve on the J. Wayne Reitz Union Board of Managers' advisory board, which oversees current renovation plans. Finally, as a Florida Blue Key member, Mr. Kandel helped plan Gator Growl, homecoming and other UF events.

Mr. Kandel believes his greatest contribution, however, is with the UF Interfraternity Council, where he serves as president. As a liaison between the Dean of Students Office and the Division of Student Affairs, he is tasked with allocating the annual \$115,000 budget. During his presidency, Mr. Kandel emphasized multicultural competency and awareness throughout the entire IFC by encouraging education and joint programming among all levels of the Greek community. He also initiated the Walk Safe program throughout campus to provide students with comfort and safety at night. The program's success equated to 516 volunteers and 2,086 hours of service.

As a recipient of the Outstanding Leader Award, Mr. Kandel has persevered through challenging tasks and has been an inspiring vision to students, teachers and board members.

Awards to Outstanding Leaders

The Selection Committee for Outstanding Graduating Student Leaders considers the quality and scope of leadership activities, universitywide leadership, experience, special awards, recognition and recommendations of faculty, staff and students.

Alison Sanchez *Outstanding Female Leader*

When Alison Sanchez arrived on UF's campus, the word leadership quickly transformed her college experience. UF's co-ed business fraternity, Alpha Kappa Psi, was Ms. Sanchez's first stop. She quickly saw the need for innovation and creativity within the 200-person organization and suggested teaming up with the Salvation Army to host Fall Festival, a program that benefits the local community. Alpha Kappa Psi honored her with the Helping Hand Award, which further motivated her to help.

Ms. Sanchez soon joined the Dean of Students Office as a Warrington Welcome Peer Leader, advising incoming freshman about their future in UF's Warrington College of Business Administration.

"Working with freshmen was a constant reminder of the high caliber of student that is admitted to UF each year," Sanchez recalls.

She assisted in teaching several Warrington Welcome classes and was one of the first students to receive

the Excellence in Service Award for her commitment to the Warrington Welcome program. Following her involvement as a peer leader, Ms. Sanchez was chosen as a Warrington Diplomat, a selective group of 35 ambassadors who provide professional development and motivation to peers and students, and was then elected as its vice president of programming.

Ms. Sanchez also is involved in the Business Undergraduate Mentorship Program, where she moved from mentee to mentor. The organization, which values community service, inspires children to set high goals for themselves. As the director of program initiative, she planned communitywide events such as Game On! to help low-income families in Gainesville through the Boys and Girls Club Rotary.

Aside from the leadership positions that she has held, Ms. Sanchez said she is most grateful for the memories and experiences she has shared with peers and professors alike. Recognized by her educators and mentors as being "invariably polite and respectful to everyone" with a "humble and hardworking spirit," Ms. Sanchez embodies all of the qualities of the Outstanding Leader Award.

Honorable Mention

The following students have been recognized for their leadership at the University of Florida. They deserve congratulations for their contributions to the university.

OUTSTANDING LEADERS

Leah Harding
College of Journalism and Communications

Seth Lindstrom
College of Engineering

UF

2014 FALL
COMMENCEMENT

2014 Distinguished Educators

Robert Egley, Ph.D.
Hendry County–Clewiston
*Principal at LaBelle
High School*

Many people – including parents and students – are delighted that Robert Egley returned to his native Hendry County. Dr. Egley earned a bachelor's degree in physical education from the University of Florida and a doctorate in educational leadership at Mississippi State University. He has served in various capacities at Hendry County's Clewiston High School, LaBelle Middle School and LaBelle High School, where he is now principal. Teacher empowerment is the cornerstone of Dr. Egley's educational philosophy, and he has a track record of proven results. He views everyone in the Hendry County learning community as valued stakeholders, and he easily could have remained at the university level after receiving his doctorate. Instead, he chose to follow his heart, which he says belongs in public education.

Richard Hernandez
Okaloosa County–Niceville
*Social Studies Teacher and
Gifted Education at Niceville
High School*

As a long-time educator, Richard Hernandez has been instrumental in fostering the gifted program at Niceville High School in Okaloosa County. His most popular and significant contribution has been the establishment of the Natural Geography In Shore Areas project, or NaGISA. The 50-year project will establish a baseline of biodiversity along the world's coastline. Under Mr. Hernandez's tutelage, Niceville High School was the only school invited to present at the Census of Marine Life World Conference in London. He also has led NaGISA student groups to Japan, Costa Rica, Turkey, Tanzania, Crete and Egypt; the group will collect data in Portugal next year. The Niceville gifted program continues to grow with the most recent implementation of the Advanced International Certificate of Education (AICE) Global Perspectives program through the University of Cambridge.

Alfred Fabrizio
Martin County–Palm City
*Principal at Martin County
High School*

Al Fabrizio has more than 25 years of secondary education experience in the Martin County School District serving as a special education teacher and coordinator, dean of students, assistant principal of curriculum and currently as principal at Martin County High School. He also was assistant principal at Jensen Beach High School, where he helped lead the school to seven straight A ratings. While there, Mr. Fabrizio received the Florida Department of Education's 2008 Outstanding Assistant Principal Achievement Award. Since arriving at Martin County High, the school was recognized as one of Newsweek's 2013

Best American High Schools and was included on the 2014 Daily Beast's list of America's Top High Schools. The school also was selected by the International Center for Leadership in Education as a 2014 Model High School.

2014 Distinguished Educators

Moneek Scott-McTier, Ph.D.
**Palm Beach County–Royal
Palm Beach**

*Principal at Pleasant City
Community Elementary School*

As principal at Pleasant City Community Elementary School in Palm Beach County, Dr. Moneek Scott-McTier has demonstrated a tenacious commitment to consistent school transformation and acceleration. Her passion carries over to her dynamic team of educators, as evidenced by their students' improved academic performance that has helped raise the school's grade from a D to an A in just three years. In 2013, Pleasant City Community Elementary was the No. 2 school in the Palm Beach County district for reading growth and rated third for math improvement. This year the school was first in math growth. In 2013, Dr. Scott-McTier received the School Counseling Association's Elementary Administrator of the Year award—a heartfelt tribute from her school's students and staff, and she previously was recognized as a Title 1 Distinguished Principal in Closing the Achievement Gap.

David Steffey
Marion County–Ocala
*Reading Teacher at Osceola
Middle School*

David Steffey is a reading instructor at Osceola Middle School in Ocala, and he happens to be Marion County's 2014-2015 Teacher of the Year. Mr. Steffey excels inside and outside of the classroom, as evidenced by the "Tools 4 Teaching" free store for teachers he founded five years ago. Since then, Tools 4 Teaching has had almost 1,000 shopping visits and has given away nearly \$500,000 in free supplies. The store is now managed by the Public Education Foundation of Marion County, but Mr. Steffey still plays an active volunteer role. Mr. Steffey spearheaded another volunteer project in 2008 when he led students, parents and community volunteers in a campus beautification program. Grants were written, donations were made and a community came together to beautify the historic campus of Osceola Middle School.

What Makes a University Great?

Some interesting facts about the University of Florida

Educational Excellence

UF is consistently ranked among the nation's top universities: No. 14 in U.S. News & World Report "Top Public Universities" (August 2014); No. 3 in Kiplinger's "Best Values in Public Colleges" (2014); No. 3 in the Fiske Guide to Colleges' list of Best Buys Among Publics (2014); No. 15 on the Forbes' list of best public universities (2013); and No. 1 on Washington Monthly magazine's list of national universities that offer the best bang for the buck (2013).

Job recruiters ranked UF ninth on the list of places where corporations prefer to recruit new employees (2010) and No. 2 on SmartMoney magazine's list of universities whose graduates get the highest salary return for their tuition dollars (2012).

Faculty

- UF has nearly 4,000 faculty members with distinguished records in teaching, research and service, including 37 Eminent Scholar chairs and 42 faculty elections to the National Academy of Sciences, Engineering, the Institute of Medicine, or the American Academy of Arts and Sciences.
- Awards include a Fields Medal, two Pulitzer Prizes, NASA's top award for research, and Smithsonian Institution's conservation award.

Students

- More than 96 percent of incoming freshmen score above the national average on standardized exams. Students admitted for the fall 2014 freshman class had an average 4.4 GPA and an average SAT score of 1960.
- More than 1,260 International Baccalaureate students were enrolled in UF in 2014 – more than any other university in the United States. The freshman retention rate of 96 percent is among the highest in the country.
- Among AAU public universities, UF ranked first in master's degrees and second in bachelor's degrees awarded to Hispanic students in 2013.
- Sixty-seven percent of UF freshmen graduate within four years, and 85 percent of UF freshmen graduate within six years.
- Nearly two-thirds of UF graduates leave the university with no student loan debt. For the remaining third, their average indebtedness is about \$20,708, as compared with the national average of roughly \$29,400.

UF

2014 FALL
COMMENCEMENT

Chain of Office

An ornament worn with the president’s academic regalia symbolizing the authority and responsibilities incumbent with the office. The chain was presented in 2004 during the installation ceremony of President J. Bernard Machen. The medallion centerpiece is a 1.3-carat orange diamond engraved with the portraits, names and service years of the university’s 11 presidents. The Major Analytical Instruments Center at UF used ion beam engraving technology on the medallion. Also on the medallion are three .025-carat blue diamonds placed around the silhouette of the Century Tower and University Auditorium, signifying teaching, research and service. All four diamonds, donated by Gemesis Corp. of Sarasota, Florida, were grown using a process developed and patented by UF’s Department of Materials Science and Engineering.

Academic Mace

“Honoring the Past, Shaping the Future” was the signature of the University of Florida’s sesquicentennial celebration in 2003. It also was the inspiration for the ceremonial mace created and dedicated to mark this historic event. The mace dates back to the Middle Ages and symbolizes strength and authority; each is unique and reflects the values and characteristics of the institution. The university’s chief marshal, who leads all academic processions, carries the mace. Designed and crafted on the University of Florida campus, the mace artfully symbolizes those elements important to the university’s identity and history.

The 70-inch ceremonial staff combines traditional elements with modern styling. The stylized alligator rests on the globe signifying the University of Florida as an adaptable global leader in teaching, research and service. The four pillars supporting the globe represent the four original colleges; Agriculture, Engineering, Liberal Arts and Law. The cone holds the University of Florida Seal and words to the Alma Mater. The staff is carved from native cherry wood. The acorn finial depicts the adage “from tiny acorns mighty oaks do grow,” a commitment to life long learning. The brick pattern on the handle symbolizes higher education tradition and structure. Like the institution it represents, the mace is not static; growth and movement are expressed with loose rings engraved with the names of the university’s presidents and their years in office.

University of Florida Tassels

Fisher School of Accounting.....	Aqua
College of Agricultural and Life Sciences.....	Maize
M.E. Rinker Sr. School of Construction Management.....	Burnt Orange and Opal
Warrington College of Business.....	Drab
College of Dentistry.....	Lilac

College of Liberal Arts and Sciences, Sciences.....	Golden Yellow
College of Medicine.....	Green
College of Nursing.....	Apricot
College of Pharmacy.....	Olive Green
College of Public Health and Health Professions.....	Salmon
College of Veterinary Medicine.....	Gray

Diplomas

Diplomas will be mailed to the graduate's permanent home mailing address in February 2015.

Caps and Gowns, An Explanation

The academic costume worn by graduating students and faculty at today's commencement ceremonies evolved from a style of dress worn by members of guilds and religious orders in medieval times. The black academic gown is worn by individuals who have earned a degree in higher education. In addition, hoods are worn by graduate degree candidates, but not by undergraduate degree candidates.

At the University of Florida, the lining of the hood has a blue chevron on an orange background to represent the university colors. University faculty members who hold degrees from another college or university wear the colors of their alma mater.

The velvet edging on the academic hood is the color that represents the particular degree held by the wearer. Agricultural and Life Sciences and Forest Resources and Conservation share maize edging; Design, Construction and Planning and Construction Management are blue violet; Audiology degrees have colonial blue edging; Business Administration and Accounting are drab; Dentistry is lilac; Education is light blue; Engineering degrees are represented by orange edging; Fine Arts degrees have brown edging; Journalism and Communications is garnet; Law is purple; Liberal Arts is white and Liberal Sciences is golden yellow; Medicine is green; Music is pink; Natural Resources and Environment is antique gold; Pharmacy is olive; Philosophy is royal blue; Public Health degrees have salmon pink edging; and Rehabilitation Counseling degrees have Nile green edging.

Distinctions among sleeves indicate the type of degree held by the wearer. A long, pointed sleeve indicates a bachelor's degree, while a long, closed sleeve with a slit near the upper part of the arm designates a master's degree. A round, open sleeve identifies a doctoral degree.

The doctoral costume also has velvet running on the rest of the gown, including cross bars on the sleeve. The trimming may be black or it may match the color of the velvet hood edging. Colored tassels on the degree candidates' caps indicate a candidate's school or college.

UF

Alma Mater

*Florida, our Alma Mater
Thy glorious name we praise
All thy loyal sons and daughters
A joyous song shall raise.
Where palm and pine are blowing,
Where southern seas are flowing,
Shine forth thy noble Gothic walls,
Thy lovely vine-clad halls.
Neath the Orange and Blue victorious
Our love shall never fail.
There's no other name so glorious—
All hail, Florida, Hail!*

Milton Yeats
