UF

UF | UNIVERSITY *of*
FLORIDA

Commencement
SPRING 2024

Greetings from the President

Class of 2024—Congratulations!
Today is a great celebration—both of your hard work and of this glorious place.

It takes a team to get to this day—your family, friends, study partners, professors, and advisors. We (especially Albert and Alberta) are all proud of your successes.

You're graduating from UF during an amazing period in human history. There is great opportunity ahead, and we believe that our Gator Grads are well prepared to excel. Your curiosity—and your grit, flexibility, and confidence in your ability to be lifelong learners—will drive your success.

Radically practical yet elite, UF is always trying to ask and answer the big questions. Who can we uplift? How do we serve more? How do we bring more positive life change? Thank you for being a part of this ceaseless effort over these past several years. We want to keep engaging, breaking bread, and sharing in dialogue with you, and we want you to always think of UF as home.

We hope you'll cherish your time here and come back and see us often.

On behalf of UF and Gator Nation: Congrats, and Go Gators!

Ben Sasse

University of Florida President

Dr. Ben Sasse

Ben Sasse joined the University of Florida as a professor and 13th president of the 170-year-old institution in February 2023.

A husband, father, historian, Uber driver, and football addict, Ben is committed to guiding Gator Nation through this era of rapid change in the nature of work, technology, and higher education.

As the leader of Florida's flagship land-grant university, Ben has moved swiftly to cultivate fresh leadership, construct a UF-wide strategic planning initiative, and ground UF's priorities in making the highest and best use of public funds. He has sought to establish goals that are critical to Gators and the state: more applied research, more focus on lifelong learning for students, and faster, more nimble engagement with exceptional partners.

Ben believes that Florida is the most dynamic state in the Union—with a diverse economy, fast-growing population, and vast outside investment. He sees UF as uniquely positioned to help Floridians maximize the state's potential as an economic and cultural juggernaut.

Twice elected to the United States Senate and a two-time *New York Times* national best-selling author, Ben's career has spanned the private and public sectors.

Passionate about education and teaching, Ben taught at Yale University, the University of Texas, and Midland University in his Nebraska hometown. Professor Sasse has won teaching awards and holds a history Ph.D. from Yale, where his dissertation won both the Egleston and Theron Rockwell Field best dissertation prizes.

Ben and his wife, Melissa, have two college-age daughters and a younger son. Ben, Melissa, and Breck live on campus in the Dasburg House with multiple dogs and Breck's lizard, Dart, who is delighted to call humid subtropical Gainesville home.

COMMENCEMENT AGENDA - FRIDAY, MAY 3, 7 P.M.

Presiding	Ben Sasse <i>President</i>
Processional	UF Symphonic Band UF Concert Choir, Chorale, and Glee Club
National Anthem	UF Symphonic Band UF Concert Choir, Chorale, and Glee Club
Welcome	Ben Sasse
Introductions	J. Scott Angle <i>Provost and Senior Vice President for Academic Affairs</i>
Armed Forces Commissions and Recognitions	J. Scott Angle
Presenting Distinguished Alumnus Awards Award Recipient	J. Scott Angle Robert B. Carter <i>Exec. VP, FedEx Information Services, and CIO, FedEx Corporation</i>
Award Recipient	Steve Goldman <i>Philanthropist</i>
Award Recipient	Bob Hesterman <i>Consultant</i>
Award Recipient	Yangbin Wang <i>Chairman and CEO, Vobile Group</i>
Alumni Association Remarks	Barbie Pressly Tilman <i>President, UF Alumni Association, Inc.</i>
Commencement Address	Carlton Ward Jr. <i>Conservation Photographer and National Geographic Explorer</i>
Presenting Candidates for Degrees	J. Scott Angle Deans of the Colleges
Conferring of Degrees	David L. Brandon <i>Member, UF Board of Trustees</i>
Closing Remarks	Ben Sasse
Alma Mater	UF Symphonic Band UF Concert Choir, Chorale, and Glee Club
Recessional	“I Won’t Back Down” © 1989 Written by Tom Petty and Jeff Lynne Performed by Tom Petty Album: <i>Full Moon Fever</i>

Commencement Speaker

Carlton Ward Jr.

Conservation Photographer and National Geographic Explorer

Carlton Ward Jr. is a conservation photographer and a National Geographic Explorer, whose mission is to inspire appreciation and protection of the endangered wild places hidden in plain sight but in need of attention to be saved.

Carlton completed his master's degree at the University of Florida, where he studied ecology, anthropology, and photojournalism. His thesis, *Conservation Photography*, was the first academic exploration of the emerging field.

He began his career working with the Smithsonian Institution in Central Africa, leading to his first book, *The Edge of Africa*, and a new appreciation for the power of photography to inspire conservation policy. In 2004, he returned his focus to his native Florida, motivated by eight generations of family heritage and a desire to protect the state's under-appreciated wild heart. In 2009, Carlton published the award-winning book, *Florida Cowboys*. In 2010, he founded the Florida Wildlife Corridor project, which led to two National Geographic-supported expeditions, award-winning books, PBS films, and a widespread outreach for the statewide vision to keep Florida wild.

Carlton currently leads an organization called Wildpath, which uses storytelling to protect land, water, and wildlife and to achieve conservation policy. In 2015, Wildpath launched the Path of the Panther project, which convened a coalition of partners, inspired the Florida Wildlife Corridor Act of 2021, and has since helped to achieve more than \$2 billion in new funding for land

conservation. In 2023, the award-winning film, *Path of the Panther*, featuring Carlton's work, was released for streaming on Disney+ and Hulu, alongside a new National Geographic book with the same title.

In addition to the ongoing work to protect the remaining 8 million acres in the Florida Wildlife Corridor, Carlton and Wildpath are leading new campaigns advocating for the protection of wildlife corridors in the Gulf of Mexico, throughout the Americas, and beyond.

While Carlton's work was originally inspired by wild places and conservationists before him, his biggest motivation now is the three beautiful children he shares with his wife, Suzie (UF LLM 2013)—Eldridge (10), Nell (8), and Carlton III (6)—and the need to sustain the balance of life on the earth for their generation.

Distinguished Alumnus Award

Robert B. Carter

Executive Vice President, FedEx Information Services, and Chief Information Officer, FedEx Corporation

Robert "Rob" B. Carter is the executive vice president of FedEx Information Services and the CIO of FedEx Corporation. He is a member of the six-person executive committee, which plans and executes the corporation's strategic business activities. He also serves as co-president and co-CEO of FedEx Services, the shared service entity responsible for sales, marketing, information technology, and customer service.

Rob joined FedEx in 1993 and has more than 40 years of systems development and implementation experience. He is responsible for setting the technology direction of the FedEx applications, infrastructure, and networks that provide around-the-clock and around-the-globe support for FedEx product offerings.

Born in Taiwan, Rob grew up in Florida. He earned a bachelor's degree in Business Administration, majoring in Computer and Information Science, from the University of Florida Warrington College of Business and earned an MBA from the University of South Florida.

Rob has been awarded many industry accolades, including *Fast Company's* Most Creative People in Business, *Fortune's* Executive Dream Team, Forbes CIO Innovation Award, and Information

Week Chief of the Year. He is a charter inductee of the CIO Hall of Fame.

Rob currently serves on the board of directors of New York Life and is a member of the board of trustees for the University of Memphis. He is a past member of the board of directors of Saks Inc. and Pilot Travel Centers LLC and has served many community and non-profit organizations. He is also a past member of the board of directors of the UF Foundation and has established an endowed professorship in the Warrington College of Business.

Rob and his wife, Jenny, live in Memphis, Tennessee, and are proud parents of five children.

Distinguished Alumnus Award

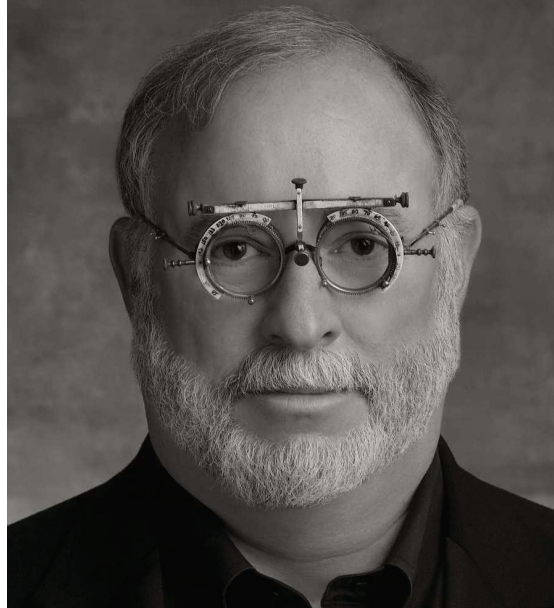

Steve Goldman

Philanthropist

Steve Goldman is a world-recognized expert and pioneer in computer storage technology, including disk caching and Redundant Array of Independent Disks (RAID). In 1977, Mr. Goldman founded Distributed Processing Technology, the first company to develop and manufacture intelligent storage controllers for the computer industry. In the 1980s, he helped create several computer interface standards for the American National Standards Institute (ANSI), including the Small Computer System Interface (SCSI). In 2000, Mr. Goldman retired from the computer industry to pursue philanthropic interests in the arts and sciences.

Mr. Goldman has served as president of the Orlando Philharmonic Orchestra and as vice president of the Marin Symphony. In addition, Mr. Goldman has served on the Board of Trustees for United Arts of Central Florida, the Orlando Museum of Art, the Orlando Festival of Orchestras, and the Orlando Science Center. In 2002, he served as interim CEO for the Orlando Science Center. He is a member of the Dean's Advisory Council for the University of Central Florida College of Arts and Humanities and the Dean's Advisory Board for the College of Sciences.

In 2015, Mr. Goldman served on the Winter Park Visioning Steering Committee. He was included in the inaugural list of "Most Influential People in Winter Park" by *Winter Park Magazine* and "50 Most Powerful People" by *Orlando Magazine*. In 2018, Mr. Goldman was a founding member of

the Winter Park Land Trust, the first land trust of its type in Central Florida, and currently serves as the chair of its Board of Trustees.

Mr. Goldman founded and, in conjunction with the University of Central Florida, Full Sail University, and Rollins College, sponsors the National Young Composers Challenge. He is the creator of the charitable non-profit corporation Why U, which develops animated video tutorials for math and science education.

Mr. Goldman studied music composition at the Interlochen Center for the Arts and, in 1974, received a Bachelor of Science in Physics from the University of Florida. He is a member of the Sigma Pi Sigma Physics Honor Society.

Distinguished Alumnus Award

Bob Hesterman

Consultant

Bob Hesterman was born in Amsterdam, where he now lives with his family. He enjoys sailing, ice-skating, camping, and outdooring.

After earning a bachelor's degree in Tropical Agriculture in Deventer (Holland), Bob enrolled at the University of Florida and earned a Master of Science in Geography in 1986, obtaining a Certificate in African Studies as well.

After graduation, fulfilling the faith-inspired dream he held as a teenager, he began working in the field of poverty eradication, especially in sub-Saharan Africa. He continued to do so for nearly 40 years—the last 24 years as the owner of Bob Hesterman Consult.

He specialized in the design, evaluation, and management of development projects, working in English or French. He worked for many organizations, including the Netherlands Ministry of Foreign Affairs, the United Nations, the Netherlands Red Cross, embassies, cooperatives, universities, non-governmental organizations (e.g., SNV, Oxfam, Hivos, ICCO), and the private sector.

He lived and worked with his family for ten years in remote parts of Africa, including conflict zones. He fell in love with the continent and its people, and he firmly believes in its prosperous future with equal rights and democracy for all.

Because he has drafted numerous studies and articles and has won grant proposals throughout his career, he can now reflect more fully on and write about his past experiences

and what he wishes to share with others. Critically reviewing his humanitarian and development interventions, especially in Africa, and highlighting lessons learned, he is currently researching and developing ten thematic case studies, dealing with Tanzania, Uganda, Rwanda, the Democratic Republic of Congo, Kenya, Ethiopia, Haiti, Vietnam, and Nepal. These case studies are meant to provide students of African development insights into project design, management, and evaluation from the point of view of a development practitioner. Moreover, he is working on a paper dealing with the interlinked wars of Rwanda and the Democratic Republic of Congo. Finally, he is writing a manuscript dealing with the resistance movement in downtown Amsterdam during World War II—a resistance in which his parents participated.

Distinguished Alumnus Award

Yangbin Wang

Chairman and CEO, Vobile Group

Yangbin Wang is a pioneer in developing innovative technologies for digital content protection and transactions that increase revenue for content owners. In 2005, he founded Vobile, a global leading Software-as-a-Service (SaaS) provider in content protection and the transaction of digital assets. Under Yangbin's leadership, Vobile has achieved tremendous growth over a decade—going from a Silicon Valley startup to a global public company with a successful IPO in 2018. He remains the company's chairman and CEO.

Vobile develops software services based on its VDNA digital fingerprinting and watermarking core technologies, widely deployed by rightsholders such as movie studios, television networks, and streaming platforms for content protection and monetization. In honor of Vobile's innovation excellence in developing video identification technology to protect content value and copyright, they were awarded an Emmy at the 69th annual Technology and Engineering Emmy Awards. Vobile was also named a Deloitte Technology Fast Leader in 2021 for its significant business growth and technology innovation.

Yangbin earned an MSEE degree from the University of Florida in 1993 and a bachelor's degree in engineering from Zhejiang University in 1991. He serves on the Dean's Advisory Board and West Coast Advisory Board for the Herbert Wertheim College of Engineering at UF and is an elected director of the UF Foundation National Board.

*Cum Laude

**Magna Cum Laude

***Summa Cum Laude

(Cum Laude, Magna Cum Laude, and Summa Cum Laude are tentative and subject to final grades.)

Chain of Office

This custom-made ornament is worn with the president's regalia, symbolizing the authority and responsibilities of the office. The chain is engraved with the names and service years of the university presidents. The medallion's centerpiece is a 1.3-carat diamond.

Academic Mace

Dating back to the Middle Ages, the mace symbolizes strength and authority. The UF ceremonial mace was created for the university's sesquicentennial celebration in 2003. The 70-inch staff features an alligator sitting atop a globe. The four pillars supporting the globe represent the four original colleges: Agriculture, Engineering, Law, and Liberal Arts. The staff is carved from cherry wood. The university's chief marshal, who leads all academic processions, carries the mace.

Diplomas

Diplomas will be mailed to the graduates' diploma mailing address in July of 2024.

Caps and Gowns, An Explanation

The academic regalia worn by graduating students and faculty in this era evolved from a style of dress worn by members of guilds and religious orders in medieval times. The academic gown is worn by individuals who have earned a degree in higher education. In addition, hoods are worn by graduate degree candidates but not by undergraduate degree candidates.

At the University of Florida, the lining of the hood has a blue chevron on an orange background to represent the university colors. University faculty members who hold degrees from another college or university wear the colors of their alma mater.

The velvet edging on the academic hood is the color that represents the particular degree held by the wearer. Agricultural and Life Sciences and Forest Resources and Conservation share maize edging; Design, Construction and Planning and Building Construction are lilac; Audiology degrees have colonial blue edging; Business Administration and Accounting are the color drab; Dentistry is lilac; Education is light blue; Engineering degrees are represented by orange edging; Fine Arts degrees have brown edging; Health and Human Performance is sage green; Journalism and Communications is garnet; Law is purple; Liberal Arts is white, and Liberal Sciences is gold yellow; Medicine is green; Music is pink; Natural Resources and Environment is antique gold; Nursing is apricot; Doctor of Occupational Therapy is slate blue; Doctor of Pharmacy is olive; Philosophy is royal blue; Public Health degrees have salmon pink edging; Rehabilitation Counseling degrees have Nile green edging; and Veterinary Medicine is gray.

Distinctions among sleeves indicate the type of degree held by the wearer. A long, pointed sleeve indicates a bachelor's degree, while a long, closed sleeve with a slit near the upper part of the arm designates a master's degree. A round, open sleeve identifies a doctoral degree.

The blue doctoral regalia also has velvet running on the rest of the gown, including crossbars on the sleeve. Colored tassels on the degree candidates' caps indicate a candidate's school or college.

UF

Alma Mater

*Florida, our Alma Mater
Thy glorious name we praise
All thy loyal sons and daughters
A joyous song shall raise.
Where palm and pine are blowing,
Where southern seas are flowing,
Shine forth thy noble Gothic walls,
Thy lovely vine-clad halls.
Neath the Orange and Blue victorious
Our love shall never fail.
There's no other name so glorious—
All hail, Florida, Hail!*

Milton Yeats
