Dr. W. Kent Fuchs

Dr. W. Kent Fuchs became the University of Florida’s 12th president in January 2015.

Most recently the provost of Cornell University, Dr. Fuchs’ experience combines academic leadership as a provost, dean and department chair; a distinguished career as an engineering professor; and graduate education in both engineering and divinity. In accepting the presidency, Dr. Fuchs outlined his overarching goal for UF: to elevate its stature, as measured by quality and comparative excellence, to that of one of the nation’s best public universities.

President Fuchs will pursue this objective by continuing to lead the university’s preeminence plan, along with a campus-wide goal-setting effort to set objectives for the next five and ten years. He will seek to significantly increase UF’s endowment; enhance the efficiency and effectiveness of university operations; and establish UF as a national leader and voice for higher education.

The UF presidency is a natural next step for Dr. Fuchs, who spent six years as Cornell’s provost. There, he led the creation of a new technology campus in New York City, launched a university wide initiative to raise Cornell’s academic stature and was a key leader of Cornell’s fundraising efforts. He was appointed provost after serving as the university’s Joseph Silbert Dean of Engineering from 2002 to 2008. He joined Cornell from Purdue University, where he headed the School of Electrical and Computer Engineering from 1996 to 2002. He was a professor in the Department of Electrical and Computer Engineering and the Coordinated Science Laboratory at the University of Illinois from 1985 to 1996.

He is a fellow of the American Academy of Arts and Sciences, the American Association of the Advancement of Science, the Institute of Electrical and Electronics Engineers, and the Association for Computing Machinery, and has received numerous awards for teaching and research.

President Fuchs earned his doctorate in electrical and computer engineering from the University of Illinois, and a master of divinity from Trinity Evangelical Divinity School in Chicago. He credits divinity school with teaching him communication and community-building skills, and to balance his innately analytic perspective with a deep appreciation for people and for human relationships. He also holds a master of science from the University of Illinois and a bachelor of science in engineering from Duke University.

Dr. Fuchs is married to Linda Moskeland Fuchs, an art historian whose scholarship centers on the sculpture of sarcophagi created in the first centuries of Christian art-making. Mrs. Fuchs has two master’s degrees in art history, from the University of Chicago and Cornell, and a third in Biblical studies, from Trinity Evangelical Divinity School. She is active in campus and community life, including spending six years on the board of Chesterton House, a center for Christian studies at Cornell, the past three years as chair.

The Fuchses have three sons and a daughter, Micah, Eric, Isaac and Christine. Eric and their daughter-in-law, Mikaela, have a baby boy named Henry.

Born on an Oklahoma farm in 1954, President Fuchs spent much of his youth in Alaska before moving to Miami, where he graduated from Miami Killian Senior High School. His two younger brothers and stepmother live in South Florida.
Greetings from the President

On behalf of the University of Florida and our administration, faculty and staff, I would like to extend my heartfelt congratulations to you, the Class of 2015, and to your family and friends.

Today's ceremony celebrates your considerable accomplishment in completing a degree program at one of the world's great universities. I share your pride and excitement, and I am confident that your degree — and the skills and experience you acquired while at this university — will serve you well in your careers and lives.

As you enjoy this celebration, you may already be headed for graduate school or a professional opportunity. I urge you to pursue your highest career aspirations while remaining attuned to your capacity to make meaningful and lasting change in people's lives.

UF graduates have a long history of service to others, and I know you will continue that tradition “For the Gator Good.”

It has been a privilege to have you as a part of our community, and the university is better for your time here. As the first students to graduate during my tenure as president, I will always think fondly of the Class of 2015. I hope you remain connected to UF as active alumni and members of the Gator Nation.

Good luck, best wishes, and Go Gators!

W. Kent Fuchs
PHOTOGRAPHS — The university requests that all commencement guests remain in their seats while taking photographs; no guests are permitted in the graduates' seating area. Photographs of the graduates as they cross the stage are available through companies that have contracts with the university. Color photographs are available from University Photography, PO Box 2454, Tuscaloosa, AL 35403-2454, 205-391-9500.

Distinguished Alumnus Award

Alfred Cave

In the early 1960s, Dr. Alfred Cave (MA ’59, Ph.D. ’61) began his career teaching history at the University of Florida. He moved on to the City College of New York and then the University of Utah, where he served in many roles, including Honors Program director, College of Letters and Sciences associate dean, Division of Humanities dean and founding dean of its newly created College of Humanities. He was hired away by the University of Toledo to become its College of Arts and Sciences dean, a post he held for 17 years.

At his career’s 25-year mark, as peers were retiring, Dr. Cave went back to the classroom to teach history. He also remained active in university affairs, serving as chair of both the Faculty Senate and the Graduate Council.

Dr. Cave developed a rare combination of administration, teaching and publishing. A specialist in Native American history and the Age of Jackson, Dr. Cave authored seven monographs, more than 100 articles and many other papers. Though he is considered the leading expert on the Pequot War, he focuses his current research on the genocide of Native Americans in the early republic and Native American religion.

His honors and achievements are too numerous to mention. But during his 50-year career, he has supervised nearly 100 master’s theses, 25 doctoral dissertations and took on leadership responsibilities that profoundly and positively impacted students, faculty and staff.
Distinguished Alumna Award

Renee Tipton Clift

For 40 years, Renee Tipton Clift (BAEd ’72) has worked to improve the quality of education in America. As The University of Arizona’s College of Education associate dean and professor of teaching, learning and sociocultural studies she also taught at the University of Houston and the University of Illinois.

Dr. Clift taught high school English for eight years in Florida. She received her master’s in educational administration from Stetson University and her doctorate in curriculum and teacher education from Stanford University before embarking on her teacher education career in Houston.

Dr. Clift’s research investigates factors that affect the process of learning to teach, which include pre-service, professional development and education leadership. Her projects include Communities as Resources for Early Childhood Teacher Preparation, an innovative, field-based early childhood teacher preparation program; making common core state standards for math accessible to teachers; and an ongoing study that examines the impact a dean can have on program development. She also authored two books and numerous journal articles, co-edited three others and contributed 31 book chapters.

A noted innovator and expert in teacher education, Dr. Clift has received numerous professional state and national awards and academic appointments in Arizona, Illinois and Florida. She has built partnerships across educational institutions and government agencies. Her work has improved teaching and learning experiences for countless teachers and students.
Distinguished Alumna Award

Judy Lynn Prince

For 21 years, UF journalism alumna and executive television producer Judy Lynn Prince (BSJ ’64) created award-winning TV commercials, marketing tapes, point-of-sale in-store videos, video news releases, training tapes and documentaries for Mobil Corp.

During that time, she trained senior executives for TV talk shows and appearances before congressional committees. As part of the Exxon-Mobil merger negotiations, she took early retirement in 1995.

Ms. Prince’s broadcasting career began in high school with “Tampa Bandstand,” a local version of Dick Clark’s highly popular “American Bandstand.” After a year working for Tampa’s WEDU television station, she moved to New York City to work for several large public relations firms, predominately doing media tours and TV promotions for organizations such as the National Coffee Association and the Cigar Institute of America, and other consumer products.

She is past president of the American Women in Radio and Television’s New York City chapter and was named Public Relations Woman of the Year by the Women in Communications’ New York City chapter. She was honored by UF as an alumna of distinction.

In retirement, she has focused on nonprofit volunteer work. Ms. Prince is past president of the Smithsonian Women’s Committee, an Arena Stage board member, Smithsonian National Board alumni member, Newseum’s Friends of the First Amendment Society board member and UF Foundation life member. She divides her time between Washington, D.C., New York City and St. Petersburg, Fla.
Distinguished Achievement Award

Donald R. Dizney

Donald Dizney is passionate about helping others and demonstrates this passion through philanthropy and service. As founder and chairman of United Medical Corp., he provides management and operations expertise that covers a spectrum of services, including cardiology, pediatric oncology and behavioral health.

However, Mr. Dizney makes a deeper commitment to service through the provision of millions of dollars to provide care for patients who require specialized services. United Medical Corp. consistently ranks as one of Florida’s top private companies.

Mr. Dizney and his wife, Irene, have generously supported the University of Florida over the years with transformative contributions in several areas, including $1.5 million to establish the Donald R. Dizney Chair in Psychiatry at the UF College of Medicine. Their generosity extends to athletics facilities and scholarships, orthopedic and sports medicine, and veterinary medicine. The Dizneys also serve on the UF Foundation Board, the College of Medicine’s Psychiatry and Addiction Medicine Advisory Board, and the Gator Boosters Board.

The Dizney’s private support has helped others beyond Florida. Eastern Kentucky University received its largest-ever single gift from the Dizneys to construct a $15 million multipurpose facility. At Western Kentucky University, the Dizneys made a gift to support the second-floor clinical learning center at The Medical Center-Western Kentucky University Health Sciences Complex. It was named the Donald R. Dizney Clinical Learning Center in Memory of Helen Turner in recognition of this gift and to memorialize Helen Turner, former director of nursing at this hospital, who gave Dizney his first job in health care in 1963.
Louis H. Oberndorf

The first in his family to earn a college degree, Louis Oberndorf knows education is crucial to success. He built his professional and philanthropic life around this idea. As founder of Medical Education Technologies Inc. (METI), he developed learning tools for health care education.

He launched METI in 1996 using human patient simulator technology developed at UF. His company grew into one of the world’s leaders in health care. One tool his firm produced is a high-tech manikin that responds to interactions, creating a realistic training simulation.

During his career, Mr. Oberndorf led critical initiatives to develop a simulation-based curriculum for numerous medical organizations and associations. Because of those connections, his volunteer work resulted in serving on a plethora of medical-related boards.

Mr. Oberndorf has deep ties to UF. He serves various roles at the UF Foundation, was named an honorary alumnus in 2010 and received the S. Clark Butler Entrepreneur of the Year Award in 2013. Most recently, he and his wife, Rosemary, supported the UF College of Medicine’s new George T. Harrell Medical Education Building, for which the college is naming its experiential learning theater in their honor. The Oberndorfs have also created numerous scholarships, a professorship and many endowments that will help people for generations.

Mr. Oberndorf was a U.S. Air Force captain and earned degrees from the universities of Utah, Portland and Michigan.
Awards to Outstanding Scholars

The Selection Committee for Outstanding Scholars considers grade point average, curriculum, academic awards, research projects or honors thesis. Four-year scholars must have started as freshmen at UF and have no more than minimal work at other institutions.

Eric Jose Coronel Esteban
Four-Year Scholar

What is your proudest Gator moment?
Translating into English a medieval Japanese treatise on court poetry written by a Buddhist nun for my graduation thesis. The author was a woman ahead of her time, and reading her thoughts and bringing them into the English language was a rewarding experience.

What is something every Gator should know?
The wealth of library resources and databases that they can access. There may not be an easier opportunity in your life to read academic journals, check out films or find books on any topic of your choice.

What is your favorite Gator icon or tradition?
The obelisk at the Health Professions, Nursing and Pharmacy building courtyard. There’s a great quote by Robert C. Wood engraved at the bottom of the obelisk. “Scientific and humanist approaches are not competitive but supportive and both are ultimately necessary.”

Who are the Gators who inspire you?
All the Gators in the Department of Languages, Literatures and Cultures and their commitment to learning a foreign language. To learn about the experiences of people outside of the United States is, if anything, a humbling experience, and I am inspired by these Gators with future careers in cultural exchange.

What was your most fulfilling UF role?
Working as a research assistant for the Florida Hospital Language Services Study. Exploring firsthand how the state of Florida strives to provide high-quality health care to patients regardless of their English proficiency not only taught me skills in quantitative research, but also how research informs policy and legislation.

Which of your UF affiliations or activities nurtured you most?
Volunteering through UF Health Shands Hospital gave me ample opportunities to reflect on the psychosocial aspects of health. As a volunteer at the hospital and later the elderly day care center, I came to truly understand one of the most important lessons taught in my coursework: that a diagnosis alone cannot explain or predict how a person experiences a disease or condition.

How will you pay it forward?
I’ve been taught by amazing professors here at UF who taught beyond the course curriculum, and the life lessons they gave fostered a deep respect within me for the profession. I aspire to one day be that professor for new generations of students — a professor who listens to students and offers genuine guidance when asked.

What will your legacy be?
I am graduating as the last student in our university to be formally trained to read classical Japanese in the original. I will be using this skill as I continue into graduate school, and I owe it to UF for offering me a skill that is perhaps seldom taught at the undergraduate level.

How do you bleed orange and blue?
I think I bleed orange and blue because I am confident that no other university could have offered me the academic experience I had here — a well-established appreciation of the humanities complemented by rigorous coursework in the research-based sciences. I bleed orange and blue because I feel undeniably welcomed by a community with a diverse student body.

Mason Robert Henehan
Four-Year Scholar

What is your proudest Gator moment?
When I walked out of a Florida-Georgia football game in Jacksonville after the Gators had been defeated. It was a tough loss, but as I was exiting the stadium the fans around me spontaneously started the “It’s Great to be a Florida Gator” chant. I was proud to be part of that moment, which showed me that Gators pull through adversity with integrity and positivity.

What is something every Gator should know?
Being a part of the orange-and-blue family is an affair that operates 24 hours a day, seven days a week. Nowhere in the world will you be immune from hearing a shout of “Go, Gators” when someone sees you representing The Gator Nation.

What is your favorite Gator icon or tradition?
Attending home football games. It is a pilgrimage that I first made as a child, that I have made innumerable times as a student and will continue to make the rest of my life. It brings you together with 90,000 of your closest friends in an electric atmosphere like no other.

Who are the Gators who inspire you?
The students and alumni I meet every day. The great diversity of people and goals they are pursuing never cease to amaze me. Every day I likely walk by multiple people who will go on to be great innovators in their respective fields.

What was your most fulfilling UF role?
Whether being the captain of an intramural sports team or an officer on a classroom-style student club, I found a great deal of satisfaction helping to organize practices and events. It was rewarding to see those efforts come to fruition in the form of victories on the field or people aided through volunteer work.

Which of your UF affiliations or activities nurtured you most?
Being a part of a scientific research laboratory in biochemistry. In addition to academic gains, it nurtured me in its team structure of working with lab mates to juggle our experiments. Similarly, I was able to meet a variety of people from other cultures and academic backgrounds, which gave me perspectives I might not have otherwise been exposed to.

How will you pay it forward?
By using my experiences at UF as a building block from which to learn. Knowledge from the classroom can be applied to help me have a successful career in medicine, where I can aid the health of my community. Knowledge from outside the classroom will help me foster relationships with others I have in my personal life. Continuing to build on that foundation and spreading that knowledge to others, when possible, is something I believe is important.

What will your legacy be?
That I was always willing to hear people out and give them some of my time when it was warranted. Like most college students, I have a busy schedule but even when I was not immediately available I always stayed in contact with people to help out or network with them when I could.

How do you bleed orange and blue?
Bleeding orange and blue comes in the everyday things you do until it becomes a part of who you are. My driver’s license picture shows me wearing an orange-and-blue Gator polo. I own an orange-and-blue striped bowtie. My coworkers bought me an orange-and-blue birthday cake last year. In the end, people who get to know me quickly discover the colors I bleed.
Awards to Outstanding Scholars

The Selection Committee for Outstanding Scholars considers grade point average, curriculum, academic awards, research projects or honors thesis. Four-year scholars must have started as freshmen at UF and have no more than minimal work at other institutions.

Andre Youki-Hashimoto
Revell
Four-Year Scholar

What is your proudest Gator moment?
Right now, here at graduation.

What is something every Gator should know?
The difference a mentor can make during your college years. You just have to ask and put just as much effort as they do for you.

What is your favorite Gator icon or tradition?
Tailgating. It is more than a tradition; it is a culture here at UF. Few schools have as much spirit for sports and few schools have as physically active of a student body.

Who are the Gators who inspire you?
Marshall Nirenberg and Robert Grubbs, who won the Nobel Prize in physiology/medicine and chemistry, respectively.

What is the most important lesson you learned (or taught to) a fellow Gator?
How to walk the fine line between diffidence and over-confidence.

What was your most fulfilling UF role?
Conducting research in different labs here at UF and seeing the process of science interpreted in different ways.

Which of your UF affiliations or activities nurtured you most?
My ecology lab, where I learned how to be a critical thinker and received invaluable mentorship from all the graduate students and, of course, from Dr. Fletcher.

How will you pay it forward?
By offering my mentorship to those in need one day, just as I needed it. I look forward to that day.

What will your legacy be?
I have grown eminently during the last four years and hope I had the privilege of changing other Gators’ awareness, beliefs and outlook on life as much as they changed mine. I hope that will be my legacy I leave with them.

How do you bleed orange and blue?
By supporting the Gators at football games, swim meets, etc.

Luca Rosignoli
Four-Year Scholar

What is your proudest Gator moment?
Being accepted to the UF College of Medicine. This achievement was an ultimate reward to my dedication during the course of my undergraduate career.

What is something every Gator should know?
How to chomp correctly.

What is your favorite Gator icon or tradition?
The yearly handout of the F Book to the freshman class.

Who are the Gators who inspire you?
Those who focus on their studies without lacking involvement on campus, as it can be very difficult to balance these two. My roommates, Alec Cronin and Kieran Wilson, inspire me in this respect.

What was your most fulfilling UF role?
My most fulfilling role at UF involved teaching children how to swim through Noah’s Endeavor, a wonderful organization, which I got to know through my involvement in the UF Swim Club.

Which of your UF affiliations or activities nurtured you most?
Being part of the UF Swim Club was very rewarding, as I made some of my closest friendships through this team. Furthermore, my involvement with Noah’s Endeavor and the UF Chemistry Outreach program was very fulfilling as they allowed me to give back to the community through teaching. My participation in research throughout my undergraduate career was also very motivating and significantly supplemented my studies.

How will you pay it forward?
I will continue to volunteer to serve the community in Gainesville as a medical student and through other outreach activities.

What will your legacy be?
I hope that I will serve as an example of dedication and hard work to my friends and fellow students.

How do you bleed orange and blue?
I bleed orange and blue while cheering at every football game.
Awards to Outstanding Scholars

The Selection Committee for Outstanding Scholars considers grade point average, curriculum, academic awards, research projects or honors thesis. Two-year scholars must have earned an Associate of Arts degree at a Florida state college and have completed the remainder of their degree at UF.

Kurt M. Barger
Two-Year Scholar

What is your proudest Gator moment?
Being accepted to medical school during my senior year here at UF.

What is something every Gator should know?
If you are enrolled in a course and would like some extra practice, I highly recommend checking out Study Edge.

What is your favorite Gator icon or tradition?
The 34th Street wall is a fun UF tradition. I drive past it almost every day, and it is fun to see how creative the students get.

Who are the Gators who inspire you?
Erin Andrews, because, well, you know. In all seriousness, she had big dreams and never gave up. Look at where she is now. That is inspiring.

What is the most important lesson you learned from (or taught to) a fellow Gator?
It is not about the destination, it is about the journey.

What was your most fulfilling UF role?
I was lucky enough to volunteer at UF Health, and it was a humbling experience. I realized that I am truly blessed.

Which of your UF affiliations or activities nurtured you most?
When I did research for the UF agronomy department, I learned that discipline is priceless. It also taught me the importance of research. I will take this with me when I enter medical school.

How will you pay it forward?
I will be attending medical school and with the knowledge I continue to gain, I will be able to help people who are in need. During my time at UF I have been taught to value service.

What will your legacy be?
I will leave my legacy through academic achievement. I hope to inspire other students to be dedicated to their schooling and get a wonderful education from the University of Florida.

Reynier Cruz Torres
Two-Year Scholar

What is your proudest Gator moment?
Being accepted into this incredible university. I did not apply to any other institution, only UF. I knew this was the place I wanted to be.

What is something every Gator should know?
How to seize the great number of research, academic and financial opportunities that this institution has to offer.

What is your favorite Gator icon or tradition?
Visiting Lake Alice. This is a very quiet place to meditate. Furthermore, it is an amazing spot to take pictures of the landscape and the alligators.

Who are the Gators who inspire you?
Mark Adler, Rodney Bartlett, Jack Clemons and Nils Diaz. All of them work in science fields.

What was your most fulfilling UF role?
My performance as an undergraduate physics researcher. I have been working as a member of the MINERvA collaboration with Dr. Heather Ray for two years. During this time, I've acquired many skills that are essential to work on neutrino physics.

Which of your UF affiliations or activities nurtured you most?
Participation in conferences and colloquia that allowed for me to learn from other people's experiences and helped me expand my professional network.

How will you pay it forward?
I would like to become a physics professor. Therefore, I hope to be able to teach my students following the guidelines, standards and procedures UF professors taught me. I will pay forward the outstanding education I received from this institution.

What will your legacy be?
My legacy will be the result of the research project I am currently working on. I will keep working on it for a while after graduation, and I hope it will give us some hint that will contribute to our understanding of physics.

How do you bleed orange and blue?
I bleed orange and blue every time I uplift the name of this school through my participation in activities such as a Fermi National Accelerator Laboratory internship, a summer U.S. Particle Accelerator School course, and my undergraduate research in the MINERvA neutrino collaboration.
Casey Elizabeth Dillon
Two-Year Scholar

What is your proudest Gator moment?
My acceptance to UF’s Accelerated Bachelor’s of Science in Nursing program. It is an honor to continue as a Gator nurse after graduation from the Health Education & Behavior program.

What is something every Gator should know?
To incoming freshmen, do not hesitate to get involved in what you are passionate about. With that, great things will come. Although it may be overwhelming at first, do your best to experience a variety of activities in addition to academics, such as Gator Nights, a sporting event here or there, etc. If you work hard toward it, a healthy balance will come.

What is your favorite Gator icon or tradition?
The high energy on game days. Regardless of the outcome, I enjoy the crowd and the team spirit that is magnetic throughout Gainesville.

Who are the Gators who inspire you?
In addition to my professors, mentors, adviser and peers, those who have come before me and set the standard for being an excellent Gator.

What is the most important lesson you learned from (or taught to) a fellow Gator?
Continuously, I have both learned from and taught others that we all have different backgrounds and I cannot assume anything about anyone. With that being said, we are all, without a doubt, equally capable of achieving anything that we can think of and put our minds to.

What was your most fulfilling UF role?
Volunteer. I have been exposed to many wonderful opportunities and areas of interest that have challenged me to grow and be a better person. My role as a volunteer in general has truly developed during my time at UF.

How will you pay it forward?
By continuing to give back to others in the UF community in the way that they have done for me. Through a career in nursing, I will make efforts to pay it forward by volunteering my nursing skills and abilities as often as possible.

What will your legacy be?
I hope to be viewed as a motivational individual as result of my hard work and dedication to all that I do. My strong desire to work with children and help others breathes life into me, which means the most to me.

How do you bleed orange and blue?
By carrying everything with me that I’ve learned about what it is to be a Gator. I also share that gift with others along the way. People I have great respect for have said that I can only keep what I have by giving it away. To me, that is bleeding orange and blue.
Awards to Outstanding Leaders

The Selection Committee for Outstanding Graduating Student Leaders considers the quality and scope of leadership activities, universitywide leadership, experience, special awards, recognition and recommendations of faculty, staff and students.

Michelle Albert
Outstanding Female Leader

What is your proudest Gator moment?
My proudest Gator moment has yet to be completed. My goal is to have both my parents witness me cross the stage at graduation. Because of my father’s mission work in Haiti and my mother’s travels abroad, I didn’t have the opportunity to have them both at my high school, middle school or elementary school graduations. As two people who have pushed me to pursue my academics fervently, my greatest UF-related accomplishment would be having them see me graduate. I am because they are.

What is something every Gator should know?
They must grow where they are planted. At times it is easy to focus on the next great thing you can do. It is important for up-and-coming leaders to not forget that you are never placed in a leadership position; you are planted. Through my time at the University of Florida, I learned that lateral leadership, gaining several positions in different organizations, was far less effective than longitudinal leadership, growing in an organization. So grow.

What is your favorite Gator icon or tradition?
Preview. I walked out of Preview knowing that I had selected the most prestigious and impressive school in the entire state, I’d chosen the school that was going to bring me success, where I’d meet my best friends and create incredible memories. Most humbling was that this amazing institution had also chosen me.

Who are the Gators who inspire you?
I’ve had the privilege of having three older sisters attend the University of Florida before me. They left massive shoes to fill. My sisters always expected more from me as they passionately pursued success while at the University of Florida.

What is the most important lesson you learned from (or taught to) a fellow Gator?
Through my leadership experiences, I learned that just as important as what you gain from an experience is what you lose during an experience. I’ve had the chance to lose my marbles, temper and track of time. I’ve also had the chance to lose my fear of uncharted waters, leadership insecurities and fear of mentorship. These losses have molded me into the woman I am today, and I have my University of Florida experiences to thank. When entering a new position or season of life, part of goal-setting should be deciding what you want to lose. It’s humbling.

What was your most fulfilling UF role?
Serving as president of the Lambda Pi Chapter of Delta Sigma Theta Sorority Inc. Being that I joined UF Greek life as a junior, I wasn’t sure what kind of impact I would be able to have on the already flourishing community. In my time as chapter president, however, I had the chance to lead a chapter of my sisters in our commitment to sisterhood, scholarship and service with a primary focus on the black community.

Which of your UF affiliations or activities nurtured you most?
The Campus Diplomats. I maintained active membership for seven years, which of my UF affiliations or activities nurtured me most. The Campus Diplomats caused an overeager overachiever to rise from a program chair to director of membership and finally to executive director. I truly learned what it meant to foster a culture of care on the University of Florida campus.

How will you pay it forward?
Mentorship is one way. Too many people contributed to my success for me not to take the time to learn from and share knowledge with my mentees at UF and in my home community. I also plan to continue my work with Projects for Haiti, a Gainesville-based non-profit organization.

Patricia Alvarenga
Outstanding Female Leader

What is your proudest Gator moment?
Founding the University of Florida chapter of She’s the First, an organization that sponsors girls’ education in developing countries. It required so much hard work, dedication, and, most importantly, passion. There were definitely times I just wanted to give up, but it was all worth it. The organization now has 40 members and is almost three years strong. It is sponsoring the education of three girls in three different countries.

What is something every Gator should know?
UF is so much more than just classes. It is a university that offers many incredible opportunities and resources, and being involved is one of the greatest things you can do to truly feel like a Gator and leave your mark.

What is your favorite Gator icon or tradition?
I will remember sitting on the Plaza of the Americas, surrounded by some of the best friends I made through my years at UF and enjoying one of my favorite Gator traditions: eating Krishna Lunch (specially the Wednesday lunch). Sitting on the grass under clear blue skies and looming trees, there was not a worry in the world. We could ignore our mounting homework. These were also reflective moments, as I gazed at Century Tower in the background and immersed myself in the bustling energy and hope of the many students that passed by.

Who are the Gators who inspire you?
Friends I made throughout my undergraduate career. From wanting to advance the space exploration industry to creating renewable energy to international humanitarian development, these friends inspire me every day with their incredible passion to impact the world in their own way.

What is the most important lesson you learned from (or taught to) a fellow Gator?
Do not make decisions based on comfort or fear and fully explore all of the incredible and unique resources provided by the University of Florida. When I first came in to UF, it would have been so easy to try to seek comfort and familiarity, but a fellow Gator encouraged me to push my boundaries and leave my comfort zone. My most meaningful experiences have been those that were completely out of my comfort zone, and those experiences are the ones that shaped me.

What was your most fulfilling UF role?
Being president and founder of the UF chapter of She’s the First, an organization that sponsors girls’ education in developing countries. Not only was I able to help girls abroad, but I was also able to mentor emerging leaders that took my role after I left. It was extremely fulfilling to see them lead and grow the organization much more than I could have ever imagined.

Which of your UF affiliations or activities nurtured you most?
The Heavener School of Business. It empowered me to grow as a leader with the different resources that it offers, as well as providing me with incredible faculty and mentors who helped me along my journey.

How will you pay it forward?
Any way I can and in any way the university sees most fit.

What will your legacy be?
I hope I was able to express my experiences and lessons to others in a way that they can learn from my mistakes, and that my legacy remains if I, in any way, impacted their lives, no matter how small.

How do you bleed orange and blue?
I will always belong to the Gator Nation, and I will bleed orange and blue no matter where I go in the world.
Commen Cement to realize their potential. What will your legacy be?

 mentor younger Gators. And with the Association of Hispanic Alumni, so I can continue to younger students. I intend to get involved with my local Gator Club and the Counseling and Wellness Center to the Institute of Hispanic-Latino Cultures. Gators should make sure that by the end of their four years on campus they are made aware of every opportunity available to them.

What is something every Gator should know?
The amazing opportunities UF has to offer, from the Career Resource Center, the Center for Leadership and Service, and the Counseling and Wellness Center to the Institute of Hispanic-Latino Cultures. Gators should make sure that by the end of their four years on campus they are made aware of every opportunity available to them.

What is your favorite Gator icon or tradition?
Century Tower. My first semester on campus, I used Century Tower as a point of reference every time I was lost. Now as a senior on campus, Century Tower represents the central location on campus. When I hear the bells playing, it is a constant reminder that I attend the best university in the state and I am a Gator forever and always.

What are the Gators who inspire you?
The Gators I surround myself with every day: my friends, Friends who have made at the University of Florida are people who empower me to be a better woman, Latina and person, every single day.

What is the most important lesson you learned from (or taught to) a fellow Gator?
What I typically try to tell younger Gators is your time on this campus goes by extremely quickly. Only get involved in things you’re passionate about. Don’t be scared to do something out of your comfort zone because those are growing opportunities. Take advantage of non-traditional opportunities that take you off campus, such as studying abroad or fulltime internships. And, lastly, don’t forget to put yourself first. Your physical, mental and emotional wellbeing should be your No. 1 priority – now and always.

What is your most fulfilling UF role?
Serving as president for the Hispanic Student Association. To have been elected to my current role, I have had to grow both personally and collectively within the organization and within the community. I have learned a significant amount about who I am and the leader I hope to become. I have found that the best and most direct way one can learn how to become a leader is by tackling community issues and working with others to address these problems. Leadership stems from fighting for something you believe in and working with your community to achieve those goals. Few things can be achieved without solidarity; so, I’ve learned to network and to look for support and strength in other people.

How will you pay it forward?
Throughout my time at UF, I’ve made it my mission to mentor younger students. I intend to get involved with my local Gator Club and with the Association of Hispanic Alumni, so I can continue to mentor younger Gators.

What will your legacy be?
Empowerment. Through my various roles on campus, I hope I have provided my peers with knowledge and power to pursue their goals and to realize their potential.

What is your proudest Gator moment?
Successfully organizing the Gators for Tuition Equity movement. My experiences with the Bob Graham Center for Public Service and the Hispanic Student Association gave me skills to help lead a campuswide and statewide movement to promote the passage of tuition equity for undocumented students. Through various panels, workshops and lobbying efforts, we were able to help transform an issue considered controversial into an issue the majority of students helped fight for. The passage of the resolution in the UF Student Senate, and later the bill in the state Legislature.

What was your most fulfilling UF role?
Serving as president for the Hispanic Student Association. To have been elected to my current role, I have had to grow both personally and collectively within the organization and within the community. I have learned a significant amount about who I am and the leader I hope to become. Awards to Outstanding Leaders

The Selection Committee for Outstanding Graduating Student Leaders considers the quality and scope of leadership activities, universitywide leadership, experience, special awards, recognition and recommendations of faculty, staff and students.

Elliot Grasso  
Outstanding Male Leader

What is your proudest Gator moment?  
Being crowned Homecoming King 2014. I had the opportunity to go on the field during halftime and wave to thousands of my peers and my parents in the audience.

What is something every Gator should know?  
Every Gator should know how to get involved. Every student can find his or her own niche among the 1,000 organizations on campus. Being involved truly shaped my college experience and played an instrumental role in my development as a leader.

What is your favorite Gator icon or tradition?  
The Homecoming parade. Since my freshman year, I have ridden in the parade and last year when I was IRHA president, I supervised the creation of 13 Homecoming floats. I always enjoyed seeing students get involved and build floats for the parade.

Who are the Gators who inspire you?  
Every day I am inspired by the students I work with in Student Government. I have been involved in SG since my freshman year and have met so many outgoing, charismatic and passionate students. I have worked with the SG exec board and the student senate on a wide range of projects. The Gators I worked with on those projects are the ones that inspired me to keep working and never give up.

What is the most important lesson you learned from (or taught to) a fellow Gator?  
Work your hardest and never give up. Since there are over 50,000 students at UF, every single student organization is competitive to get into or become a leader in. As I started my freshman year, I had a few mentors who showed me that if you prove yourself by working hard, opportunities will open up and you can successfully meet your goals.

What was your most fulfilling UF role?  
Serving as Student Body Treasurer. This role gave me the opportunity to work with over 370 student organizations on a daily basis and oversee the nearly $19 million Activity & Service Fee budget. I enacted financial policies that benefit student organizations and completed many projects on campus that enhance the overall student experience.

Which of your UF affiliations or activities nurtured you most?  
The Inter-Residence Hall Association was the first organization I was involved in at UF and definitely taught me what it means to work hard and be a true servant leader.

How will you pay it forward?  
By always contributing to The Gator Nation in some capacity. This could mean donating to my college or giving advice to a wide-eyed freshman looking to get involved, but I know that in some way UF will always be part of my life.

What will your legacy be?  
Assisting UF in providing a better student experience for all Gators. Throughout my entire involvement, every project I worked, policy I implemented or piece of legislation I passed was done with the intentions of improving the student experience. Through my involvement in IRHA, SG, RecSports or other organizations, I believe that I have helped make the student experience better than when I first walked on campus.

How do you bleed orange and blue?  
Through my leadership and commitment to the student body. Every day I wake up and get to work with fellow Gators in many different capacities to find solutions to issues facing our student body. It is a privilege to be able to serve the university in such a manner.

Andrew Harris  
Outstanding Male Leader

Why did you become a Gator?  
The initial motivation to become a Gator came from my parents. Both graduated from the University of Florida, and as my biggest role models, I naturally wanted to follow in their footsteps. However, shortly after being accepted, I fell in love with the college-town atmosphere of Gainesville. As I progressed as a student, I realized even further how Gainesville is a town fueled by Gators and that every opportunity imaginable exists here for students. Looking back, I can’t imagine myself going to school anywhere else.

What is the most important leadership lesson you’ve learned (or taught) a fellow Gator?  
Early on at UF, I learned to embrace diversity and be mindful of the way other people think, especially those who are different from you. Along with this comes never putting yourself over someone else, and always seeking to understand perspectives that differ from yours. The student body at UF is extremely diverse and has taught me lessons I will carry for the rest of my life.

What is your favorite Gator memory?  
Living in Broward Hall freshman year. As my first time away from home, in close quarters with a bunch of strangers, I was pushed outside my comfort zone. Living in Broward forced me to connect with a large group of supportive, enthusiastic, fun and diverse people. When I look back on my time at the University of Florida, I will always remember living in the residence halls and the lasting friendships I made.

What advice would you give an incoming freshman?  
In your first year at UF, keep your eyes open and ears to the ground. There are countless organizations, opportunities, events, classes and places to get involved. Find things you are passionate about and become a part of them. Opportunities for education and involvement exist for everyone, and taking advantage of those opportunities is the best thing you can do to improve your college experience.

What is your biggest personal UF-related accomplishment?  
Graduating without having ever received a single parking ticket. To all my peers who park on campus, I’m sure you can appreciate this magnificent achievement.
Awards to Outstanding Leaders

The Selection Committee for Outstanding Graduating Student Leaders considers the quality and scope of leadership activities, universitywide leadership, experience, special awards, recognition and recommendations of faculty, staff and students.

Theodore Miller
Outstanding Male Leader

What is your proudest Gator moment?
When my fraternity, Alpha Gamma Rho, was announced as chapter of the year. This award stood for everything we worked tirelessly for over the year. We accomplished this honor through determination and relentless effort.

What is something every Gator should know?
He or she can make a difference in the world.

What is your favorite Gator icon or tradition?
Singing “We Are the Boys from Old Florida” at the end of the third quarter in the Swamp.

Who are the Gators who inspire you?
My parents. They represent everything I aspire to be. Together, they have always been my biggest supporters, encouragers and motivators. They are the main reason I am the man I am today. I hope one day I can be just half as incredible a parent as they have been to me.

What is the most important lesson you learned from (or taught to) a fellow Gator?
Dr. Tony Andenoro taught me to always embrace each day with a positive attitude, never be scared and do not sweat the small stuff.

What was your most fulfilling UF role?
Serving my college as treasurer of the Agricultural and Life Sciences College Council. I got to see all the amazing things CALS clubs are invested in, interact with a diverse group of people and help them get funding from Student Government.

Which of your UF affiliations or activities nurtured you most?
Serving as president of the College of Agricultural and Life Sciences College Council. I had to interact with Student Government and make sure our club met all deadlines for our budget. I also had to help plan CALS Kickoff, a showcase for all of the College of Agricultural and Life Sciences clubs.

How will you pay it forward?
CALS has provided me with so many skills to be successful. I will pay it forward by taking what I learned to the policy side of agriculture and represent UF CALS in a first-class manner. My dream is to one day serve Florida as commissioner of agriculture and consumer services and help create innovative solutions to our most pressing issues.

What will your legacy be?
I hope I will be remembered as a regular guy who would work tirelessly and wholeheartedly for a cause, with the ultimate goal of positively impacting everyone I came into contact with.

How do you bleed orange and blue?
Throughout my time at UF, I never missed a home UF football game and intend to keep it that way. I will also always wear my orange and blue wristbands, no matter what. My Gator orange and blue will never fade nor will my loyalty ever falter, because it is always truly great to be a Florida Gator.

Honorable Mentions

The following students have been recognized for their scholarship and leadership at the University of Florida. They deserve congratulations for their contributions to the university.

Four-Year Scholars

Troy B. Bryant
College of Engineering

Alexandra M. Cochrane

What Makes a University Great?

Some interesting facts about the University of Florida

Educational Excellence

UF is consistently ranked among the nation’s top universities: No. 14 in U.S. News & World Report “Top Public Universities” (August 2013); No. 3 in Kiplinger’s “Best Values in Public Colleges” (2013); No. 3 in the Fiske Guide to Colleges’ list of Best Buys Among Publics (2014); No. 15 on the Forbes’ list of best public universities (2013); and No. 1 on Washington Monthly magazine’s list of national universities that offer the best bang for the buck (2013).

Job recruiters ranked UF ninth on the list of places where corporations prefer to recruit new employees (2010) and No. 2 on SmartMoney magazine’s list of universities whose graduates get the highest salary return for their tuition dollars (2012).

Faculty

• UF has nearly 4,000 faculty members with distinguished records in teaching, research and service, including 37 Eminent Scholar chairs and 42 faculty elections to the National Academy of Sciences, Engineering, the Institute of Medicine, or the American Academy of Arts and Sciences.

• Awards include a Fields Medal, two Pulitzer Prizes, NASA’s top award for research, and Smithsonian Institution’s conservation award.

Students

• More than 97 percent of incoming freshmen score above the national average (1497/21) on standardized exams. Students admitted for the fall 2014 freshman class had an average 4.3 GPA and an average SAT score of 1925.

• More than 1,260 International Baccalaureate students were enrolled in UF in February 2014 – more than any other university in the United States. The freshman retention rate of 96 percent is among the highest in the country.

• Among AAU public universities, UF ranked first in master’s degrees and second in bachelor’s degrees awarded to Hispanic students in 2013.

• Sixty-seven percent of UF freshmen graduate in four years, and 85 percent of UF freshmen graduate within six years.

• Nearly two-thirds of UF graduates leave the university with no student loan debt. For the remaining third, their average indebtedness is about $20,708, as compared with the national average of roughly $29,400.
Chain of Office

The chain of office is an ornament worn with the president’s academic regalia symbolizing the authority and responsibilities incumbent with the office. The chain was presented in 2004 during the installation ceremony of President J. Bernard Machen. The medallion centerpiece is a 1.3-carat orange diamond engraved with the portraits, names and service years of the university’s 11 presidents. The Major Analytical Instruments Center at UF used ion beam engraving technology on the medallion. Also on the medallion are three .025-carat blue diamonds placed around the silhouette of the Century Tower and University Auditorium, signifying teaching, research and service. All four diamonds, donated by Gemesis Corp. of Sarasota, Florida, were grown using a process developed and patented by UF’s Department of Materials Science and Engineering.

Academic Mace

“Honoring the Past, Shaping the Future” was the signature of the University of Florida’s sesquicentennial celebration in 2003. It also was the inspiration for the ceremonial mace created and dedicated to mark this historic event. The mace dates back to the Middle Ages and symbolizes strength and authority; each is unique and reflects the values and characteristics of the institution. The university’s chief marshal, who leads all academic processions, carries the mace. Designed and crafted on the University of Florida campus, the mace artfully symbolizes those elements important to the university’s identity and history.

The 70-inch ceremonial staff combines traditional elements with modern styling. The stylized alligator rests on the globe signifying the University of Florida as an adaptable global leader in teaching, research and service. The four pillars supporting the globe represent the four original colleges: Agriculture, Engineering, Liberal Arts and Law. The cone holds the University of Florida Seal and words to the Alma Mater. The staff is carved from native cherry wood. The acorn finial depicts the adage “from tiny acorns mighty oaks do grow,” a commitment to lifelong learning. The brick pattern on the handle symbolizes higher education tradition and structure. Like the institution it represents, the mace is not static; growth and movement are expressed with loose rings engraved with the names of the university’s presidents and their years in office.

University of Florida Tassels

Fisher School of Accounting .......................................................... Aqua
College of Agricultural and Life Sciences ..................................... Maize
College of the Arts ...................................................................... Brown
M.E. Rinker Sr. School of Building Construction ......................... Burnt Orange and Opal
Warrington College of Business Administration ......................... Drab
Heavener School of Business ....................................................... Drab
Hough Graduate School of Business ............................................ Black
College of Dentistry ................................................................... Lilac
College of Design, Construction and Planning ......................... Blue Violet
College of Education .................................................................. Light Blue
College of Engineering ................................................................ Orange
The Graduate School .................................................................. Black
College of Health and Human Performance ............................... Sage Green
College of Journalism and Communications .............................. Black and White
Fredric G. Levin College of Law .................................................. Purple
College of Liberal Arts and Sciences, Arts ................................. White
College of Liberal Arts and Sciences, Sciences ............................ Golden Yellow
College of Medicine .................................................................. Green
College of Nursing ..................................................................... Apricot
College of Pharmacy ................................................................... Olive Green
College of Public Health and Health Professions ....................... Salmon
College of Veterinary Medicine .................................................. Gray

Diplomas

Diplomas will be mailed to the graduate’s permanent home mailing address in June 2015.
Caps and Gowns, An Explanation

The academic costume worn by graduating students and faculty at today’s commencement ceremonies evolved from a style of dress worn by members of guilds and religious orders in medieval times. The academic gown is worn by individuals who have earned a degree in higher education. In addition, hoods are worn by graduate degree candidates, but not by undergraduate degree candidates.

At the University of Florida, the lining of the hood has a blue chevron on an orange background to represent the university colors. University faculty members who hold degrees from another college or university wear the colors of their alma mater.

The velvet edging on the academic hood is the color that represents the particular degree held by the wearer. Agricultural and Life Sciences and Forest Resources and Conservation share maize edging; Design, Construction and Planning and Building Construction are blue violet; Audiology degrees have colonial blue edging; Business Administration and Accounting are drab; Dentistry is lilac; Education is light blue; Engineering degrees are represented by orange edging; Fine Arts degrees have brown edging; Health and Human Performance is sage green; Journalism and Communications is garnet; Law is purple; Liberal Arts is white and Liberal Sciences is gold yellow; Medicine is green; Music is pink; Natural Resources and Environment is antique gold; Nursing is apricot; Doctor of Pharmacy is olive; Philosophy is royal blue; Public Health degrees have salmon pink edging; Rehabilitation Counseling degrees have Nile green edging; and Veterinary Medicine is gray.

Distinctions among sleeves indicate the type of degree held by the wearer. A long, pointed sleeve indicates a bachelor’s degree, while a long, closed sleeve with a slit near the upper part of the arm designates a master’s degree. A round, open sleeve identifies a doctoral degree.

The doctoral costume also has velvet running on the rest of the gown, including cross bars on the sleeve. Colored tassels on the degree candidates’ caps indicate a candidate’s school or college.

Decorating the platform today are ‘Gator Glory’ coleus plants. These are a new variety of garden plant developed and provided by the UF/IFAS Institute for Plant Innovation.

The 2012-2013 academic year was spent celebrating the 150th anniversary of the Morrill Act. This federal legislation, signed by President Abraham Lincoln on July 2, 1862, established a nationwide network of public land-grant universities with a new mission. They would not only offer traditional subjects such as medicine, theology and law, they would also teach agricultural science, military tactics and engineering. Moreover, these institutions were created with federal financial support, designed to make higher education affordable to people from modest backgrounds.

UF’s Institute of Food and Agricultural Sciences (UF/IFAS) is dedicated to furthering the tripartite land-grant mission of teaching, research and extension. The idea for developing a Gator-orange coleus originated in ORH 1030, Plants Gardening and You. Taught by Dr. David Clark, professor of environmental horticulture, the class studies the art and science of plants and makes students more aware of the plants they eat and the plants in their surroundings. Students in the course receive plants of their own each week. In the last four years, more than 25,000 plants have been given to the 2,000 students who have taken the class and to friends they have brought with them from every major on campus.

Working with research colleagues in the UF/IFAS Institute for Plant Innovation, Dr. Clark used novel breeding techniques to develop this variety. The gold band around the bright orange leaves symbolizes the color traditionally used for agricultural disciplines in academic regalia. This new variety has proven to be tough in the warm Florida sunshine and is now given to the people of Florida for their continued support of the Gator Nation.
Alma Mater

*Florida, our Alma Mater*
*Thy glorious name we praise*
*All thy loyal sons and daughters*
*A joyous song shall raise*
*Where palm and pine are blowing,*
*Where southern seas are flowing,*
*Shine forth thy noble Gothic walls,*
*Thy lovely vine-clad halls.*
*Neath the Orange and Blue victorious*
*Our love shall never fail.*
*There's no other name so glorious—*
*All hail, Florida, Hail!*
