COMMENCEMENT  
SUMMER 2012

**Dr. J. Bernard Machen**

Bernie Machen was appointed Florida's 11<sup>th</sup> president in January, 2004. During his tenure, he has expanded the university's research and scholarship endeavors, elevated its educational programs and increased access to students from a diversity of economic backgrounds – all while shepherding the university through an era of growing financial challenges.

Under President Machen's leadership, UF's annual research funding has soared to \$678 million. He has presided over a major expansion of research facilities, grown UF's noted technology commercialization enterprise, and led the Florida Tomorrow capital campaign, a five-year effort that is nearing its goal of \$1.5 billion by 2012.

A longtime advocate for giving students from all walks of life the chance to attend college, Dr. Machen in 2005 pioneered the Florida Opportunity Scholars program, which pays tuition and room and board for students from disadvantaged backgrounds. Nearly 2,000 students have attended UF as recipients of the scholarship.

Like other universities nationwide, UF has faced several years of declining state support. Dr. Machen has led Florida's 11 public universities' response to these declines, successfully advocating lawmakers to step up statewide tuition increases while allowing universities greater flexibility in setting their own tuition. President Machen also launched a university-wide sustainability campaign considered a model in public higher education.

Prior to his appointment at UF, Dr. Machen served for six years as president of the University of Utah. His previous positions

include provost and executive vice president for academic affairs at the University of Michigan; dean of dentistry at the University of Michigan and associate dean at the University of North Carolina School of Dentistry.

A member of the Florida Council of 100, he has held several prominent positions in statewide and national higher education leadership – including as a member of the National Security Higher Education Advisory Board and the Board of Directors for the 2002 Winter Olympics in Salt Lake City. He earned his doctor of dental surgery from St. Louis University and doctorate in educational psychology from the University of Iowa, both of which have honored him with distinguished alumnus awards.

He and his wife, Chris, a former nurse who has been heavily involved in the university's environmental initiatives, have three children and four grandchildren.

**O**n behalf of the University of Florida administration, faculty and staff, I want to extend my most heartfelt congratulations to you, the Class of 2012, and to your family and friends. Today's ceremony celebrates your hard work and achievement in completing a demanding and rigorous course of study at this great public research university. You should be proud, as should all who supported and assisted you in your efforts.

This is a day of celebration, but it also is a day of reflection on what lies ahead. Whatever path you choose, I am confident you have acquired the skills you need to be a success. Whether you pursue a career in public service, private industry, academe, the sciences or the arts, I know you will make a difference.

It has been a privilege and a pleasure to host you during your academic career. You have learned much, and this university has benefited in turn from your presence. I hope you will recall your years here with a sense that they were both happy and productive. As a member of UF's distinguished alumni, you will always be cherished at the University of Florida.

Good luck and best wishes!

# The University of Florida

The University of Florida traces its origins to a small seminary in 1853. After the Civil War, the seminary was moved to Gainesville. It was consolidated with the state's land-grant Florida Agricultural College, then in Lake City, to become the University of Florida in 1906. Until 1947, UF was designated for men and was one of only three state universities. Today, with nearly 50,000 students, the University of Florida is among the most populous universities in the nation.

UF, one of the largest of Florida's 11 state universities, is governed by the State Board of Education, the Florida Board of Governors and the University of Florida Board of Trustees.

The University of Florida joined the ranks of North America's best graduate research institutions with its admission in 1985 to the Association of American Universities, the most prestigious organization in higher education. The university also has been recognized by the

Carnegie Commission on Higher Education as one of the nation's leading research universities.

The University of Florida encompasses 16 colleges, five schools and more than 100 interdisciplinary research and education centers, bureaus and institutes. Students can choose majors from 100 undergraduate degree programs, approximately 200 graduate programs and 30 combined degree programs. Professional postbaccalaureate degrees are offered in dentistry, law, medicine, nursing, pharmacy, physical therapy and veterinary medicine. More than 32,000 people participate annually in noncredit courses, conferences, workshops, institutes and seminars.

The university employs more than 4,000 faculty members and approximately 7,500 administrative, professional and support staff. With operations in more than 900 buildings on 2,000 acres, the university has research centers, extension operations, clinics and/or other facilities and affiliates in every county in Florida.

## 2011-2012 Teacher/Scholar of the Year Award

### Larry A. DiMatteo

Warrington College of Business Administration

Larry A. DiMatteo, the Huber Hurst Professor of Contract Law & Legal Studies, was named the 2011-12 Teacher-Scholar of the Year for the University of Florida. At UF, he has served as chair of the department of management and also has been granted affiliated professorships at the Levin College of Law and the Center for European Studies.

He is the author or co-author of some 50 publications, including seven books and 25 law review articles. He is the former editor-in-chief of the American Business Law Journal and a special issue editor of the Journal of International Trade Law & Policy.

Dr. DiMatteo received two bachelor's degrees from the University at Buffalo, where he was inducted into Phi Beta Kappa. He earned his juris doctorate from Cornell University, his master's of law from Harvard University, and his doctor of philosophy from Monash University in Australia.

His teaching excellence has been recognized by a series of awards. In 2011, he was the Warrington College of Business Administration's nominee for University International Educator Award. In 2010, he received the college's first Graduate Teacher of the Year Award and a 2010 Undergraduate Teacher of the Year Award for the department of management.

Dr. DiMatteo has received a Fulbright Professorship at Sofia University and the Academy of Science in Sofia, Bulgaria, for summer 2012. He was a Leverhulme Trust Visiting Professor at Leicester University in the United Kingdom, a visiting scholar at the University of Münster in Germany and the School of Excellence at the University of Catania, Italy. Mr. DiMatteo also has been asked to speak at the Max Planck Institute in Hamburg, Germany.

## Awards to Outstanding Scholars

The Selection Committee for Outstanding Scholars considers grade point average, curriculum, academic awards, and research projects or honors thesis. Four-year scholars must have started as freshmen at UF and have no more than minimal work at other institutions.

### Kayla S. Adams Four-Year Scholar

As an Outstanding Four-Year Scholar, Kayla S. Adams graduates with majors in fine arts and linguistics and a 3.9 grade point average. Her interests have ranged from sculpture and African agriculture to fireflies. In 2009, she spent a semester studying wood carving in a rural community in the Bahamas.

She completed two major research projects. One examined the ways ambiguity can be processed in both language and vision, exploring their parallels and differences. The other project was a yearlong study of perforated forms in nature. She has presented her range of work at seven art shows, including two solo exhibits.

Ms. Adams has sought to expand art into other disciplines, and she coordinated several projects between artists and scientists. She established ScArt, an official science and art student organization, and the blog Art/Science Collective. She says her most valued academic achievement was the creation of Analogous Thinking in the Arts and Sciences, a course and lecture series she developed with UF professors and one in which she served as a teaching assistant. The initiatives she fostered brought nationally recognized artists and scientists to the university. She has received numerous awards for her work in science and the arts, including one from the Howard Hughes Medical Institute.

Ms. Adams, whose hometown is Wellington, Fla., also has spent time outside of student artistic endeavors. She taught crochet as a UF leisure instructor and partnered with second-language learners at the English Language Institute to help them improve their English. She was a mentor for the Collegiate Helping As Mentors in Public Schools (C.H.A.M.P.S.) and the Golden Door, a program for the social and financial rehabilitation of the homeless.

Ms. Adams plans to pursue a master of fine arts degree in studio art.

### Carla-Ann R. Brown Four-Year Scholar

As an Outstanding Four-Year Scholar, Carla-Ann R. Brown exemplifies dedication to scholarship. She graduates with a 3.97 grade point average and a major in elementary education.

Her undergraduate research was a case study of a student's difficulty with letter recognition and the sounds that corresponded. By developing innovative visual and kinesthetic strategies, her goal was to help the student overcome these difficulties.

Ms. Brown used the knowledge from her thesis and applied it to the classroom, incorporating these techniques during her two elementary-school internships. She was selected to present her research and lesson plans at the Florida Association of Teacher Educators Regional Crown/Panhandle Conference and Inquiry Showcase.

Ms. Brown's honors are numerous. She is a member of the National Society of Collegiate Scholars and has been on the Dean's List since 2008. For the last five years, she has been a member of the Red Cross and Habitat for Humanity.

Her volunteer work in Gainesville also has centered on education, as she has assisted students at J.J. Finley Elementary School enrolled in English for Speakers of Other Languages classes and those participating in the after-school program. She also volunteers in the read-aloud program at Alachua County libraries.

Ms. Brown, whose hometown is Gainesville, intends to teach fourth grade after pursuing a master's degree in elementary education at UF. After a few years in the classroom, she plans to return to school to acquire a specialization in teaching gifted students.

## Awards to Outstanding Scholars

The Selection Committee for Outstanding Scholars considers grade point average, curriculum, academic awards, and research projects or honors thesis. Four-year scholars must have started as freshmen at UF and have no more than minimal work at other institutions. Two-year scholars must have earned an Associate of Arts degree at a Florida state college and have completed the remainder of their degree at UF.

**Joseph F. Radice**  
Four-Year Scholar

Joseph F. Radice entered the University of Florida as a National Merit Finalist and a Congressional Medal of Merit recipient. He majored in linguistics and psychology and graduates with a 3.96 grade point average.

His academic experience at UF has been strong and covers a range of scholarly pursuits.

Mr. Radice, whose hometown is Homestead, Fla., has as many extracurricular activities as academic ones. During an internship as a writer for the South Dade News Leader, his front-page stories covered local events and community development projects in Miami-Dade County. His community service at UF included coordinating a team of lifeguards for the March for Babies, the annual March of Dimes event on campus that raises awareness and money to fund research for sick and premature infants. He was UF RecSports Lifeguard of the Year in 2009-2010. In South Florida, he was a soccer coach for a team of children with physical and cognitive impairments, and as a camp counselor at Camp Boggy Creek in Eustis, he mentored children with terminal and life-threatening illnesses.

Teaching English as a second language has remained his priority, and Mr. Radice has been a conversation partner at the UF English Language Institute. For three years, he volunteered five hours a week as a teacher's assistant at J.J. Finley Elementary School in Gainesville, working with children, many of whom were learning English as a second language.

After graduation, Mr. Radice plans to spend time abroad teaching English while gaining fluency in four other languages. Within five years, he hopes to begin a doctoral program in educational leadership and policy to further promote international and bilingual education domestically and abroad.

**Matthew C. Dowell**  
Two-Year Scholar

Matthew C. Dowell is strongly dedicated to academics and to the business community. He majored in marketing and graduates with a 3.97 grade point average. He has an associate of arts degree in general business from Northwest Florida State College.

At the University of Florida, his honors thesis focused on how inefficiencies in communication between businesses and their customers are a result of a highly mobile U.S. population. He also served as a teacher's assistant for an advanced marketing course, proctoring exams, monitoring discussion boards and holding weekly office hours. In 2011, he earned the Sam C. Fleming Scholarship based on his academic achievement.

Although he learned much of his research knowledge in the classroom, Mr. Dowell credits his business acumen to owning and operating a company. He co-founded DoBeMotors Inc., an advertising service for car dealerships in Florida and Georgia. Although the company is no longer in operation, he describes the ups and downs of running a business as a period in his life in which he does "not regret a single moment."

Mr. Dowell, whose hometown is Niceville, Fla., has volunteered as an audio and video assistant for the Southside Baptist Church in Warner Robins, Ga., overseeing the multimedia station for the production of children's church. His interest in technology and computing industries is one he wishes to pursue professionally. After several years of work, he will apply to the Harvard Business School's MBA program.

## Awards to Outstanding Leaders

The Selection Committee for Outstanding Graduating Student Leaders considers the quality and scope of leadership activities, universitywide leadership, experience, special awards, recognition and recommendations of faculty, staff and students.

**Megan Maul**  
Outstanding Female Leader

Megan Maul, graduating with a major in economics and minors in business and leadership, is recognized as an Outstanding Female Leader for her contributions to the student body and community.

Ms. Maul knew she wanted to leave her own legacy at the University of Florida by finding ways she could improve campus life and educational experience for fellow students.

During her first semester, she became involved with the UF community through Kappa Delta sorority, Student Government and Florida Blue Key.

Ms. Maul, whose hometown is Winter Park, has left a lasting impact on the organizations. In Kappa Delta, she created an academic mentoring program to pair new members with older ones. She directed the ReConnect program through Florida Blue Key to link alumni and current members. Also, as the state affairs director for Student Government, Ms. Maul helped re-establish Gator Day in

Tallahassee to promote UF colleges and their services to local politicians.

During her junior year, she took on the role of leadership chair for her sorority, which she calls her most rewarding position. Ms. Maul was able to communicate what she had learned to younger leaders and to seek opportunities on campus and the community for the younger members.

On top of her constant school and extracurricular workload, Ms. Maul held a job nearly her whole college career and dedicated more than 1,300 hours of community service to philanthropies such as Children's Miracle Network, Big Brothers/Big Sisters and St. Jude's Research Hospital.

After graduation, Ms. Maul will begin a management position at The Walt Disney Company.

### Chain of Office

An ornament worn with the president's academic regalia symbolizing the authority and responsibilities incumbent with the office. The chain was presented in 2004 during the installation ceremony of President J. Bernard Machen. The medallion centerpiece is a 1.3-carat orange diamond engraved with the portraits, names and service years of the university's 11 presidents. The Major Analytical Instruments Center at UF used ion beam engraving technology on the medallion. Also on the medallion are three .025-carat blue diamonds placed around the silhouette of the Century Tower and University Auditorium, signifying teaching, research and service. All four diamonds, donated by Gemesis Corp. of Sarasota, Florida, were grown using a process developed and patented by UF's Department of Materials Science and Engineering.

### Academic Mace

"Honoring the Past, Shaping the Future" was the signature of the University of Florida's sesquicentennial celebration in 2003. It also was the inspiration for the ceremonial mace created and dedicated to mark this historic event. The mace dates back to the Middle Ages and symbolizes strength and authority; each is unique and reflects the values and characteristics of the institution. The university's chief marshal, who leads all academic processions, carries the mace. Designed and crafted on the University of Florida campus, the mace artfully symbolizes those elements important to the university's identity and history.

The 70-inch ceremonial staff combines traditional elements with modern styling. The stylized alligator rests on the globe signifying the University of Florida as an adaptable global leader in teaching, research and service. The four pillars supporting the globe represent the four original colleges; Agriculture, Engineering, Liberal Arts and Law. The cone holds the University of Florida Seal and words to the Alma Mater. The staff is carved from native cherry wood. The acorn finial depicts the adage "from tiny acorns mighty oaks do grow," a commitment to life long learning. The brick pattern on the handle symbolizes higher education tradition and structure. Like the institution it represents, the mace is not static; growth and movement are expressed with loose rings engraved with the names of the university's presidents and their years in office.

## *Caps and Gowns, An Explanation*

---

The academic costume worn by graduating students and faculty at today's commencement ceremonies evolved from a style of dress worn by members of guilds and religious orders in medieval times. The black academic gown is worn by individuals who have earned a degree in higher education. In addition, hoods are worn by graduate degree candidates, but not by undergraduate degree candidates.

At the University of Florida, the lining of the hood has a blue chevron on an orange background to represent the university colors. University faculty members who hold degrees from another college or university wear the colors of their alma mater.

The velvet edging on the academic hood is the color that represents the particular degree held by the wearer. Agricultural and Life Sciences and Forest Resources and Conservation share maize edging; Design, Construction and Planning and Building Construction are blue-violet; Audiology degrees have colonial blue edging; Business Administration and Accounting are drab; Dentistry is lilac; Education is light blue; Engineering degrees are represented by orange edging; Fine Arts degrees have brown edging; Journalism and Communications is garnet; Law is purple; Liberal Arts is white and Liberal Sciences is gold-yellow; Medicine is green; Music is pink; Natural Resources and Environment is antique gold; Pharmacy is olive; Philosophy is royal blue; Public Health degrees have salmon-pink edging; and Rehabilitation Counseling degrees have Nile green edging.

Distinctions among sleeves indicate the type of degree held by the wearer. A long, pointed sleeve indicates a bachelor's degree, while a long, closed sleeve with a slit near the upper part of the arm designates a master's degree. A round, open sleeve identifies a doctoral degree.

The doctoral costume also has velvet running on the rest of the gown, including cross bars on the sleeve. The trimming may be black or it may match the color of the velvet hood edging. Colored tassels on the degree candidates' caps indicate a candidate's school or college.

## Alma Mater

*Florida, our Alma Mater  
Thy glorious name we praise  
All thy loyal sons and daughters  
A joyous song shall raise.  
Where palm and pine are blowing,  
Where southern seas are flowing,  
Shine forth thy noble Gothic walls,  
Thy lovely vine-clad halls.  
Neath the Orange and Blue victorious  
Our love shall never fail.  
There's no other name so glorious—  
All hail, Florida, Hail!*

Milton Yeats
