Greetings from the President

On behalf of the University of Florida administration, faculty and staff, I want to extend my most heartfelt congratulations to you, the Class of 2012, and to your family and friends. Today's ceremony celebrates your hard work and achievement in completing a demanding and rigorous course of study at this great public research university. You should be proud, as should all who supported and assisted you in your efforts.

This is a day of celebration, but it also is a day of reflection on what lies ahead. Whatever path you choose, I am confident you have acquired the skills you need to be a success. Whether you pursue a career in public service, private industry, academe, the sciences or the arts, I know you will make a difference.

It has been a privilege and a pleasure to host you during your academic career. You have learned much, and this university has benefited in turn from your presence. I hope you will recall your years here with a sense that they were both happy and productive. As a member of UF's distinguished alumni, you will always be cherished at the University of Florida.

Good luck and best wishes!

J. Bernard Machen
The University of Florida traces its origins to a small seminary in 1853. After the Civil War, the seminary was moved to Gainesville. It was consolidated with the state's land-grant Florida Agricultural College, then in Lake City, to become the University of Florida in 1906. Until 1947, UF was designated for men and was one of only three state universities. Today, with nearly 50,000 students, the University of Florida is among the most populous universities in the nation.

UF, one of the largest of Florida's 11 state universities, is governed by the State Board of Education, the Florida Board of Governors and the University of Florida Board of Trustees.

The University of Florida joined the ranks of North America's best graduate research institutions with its admission in 1985 to the Association of American Universities, the most prestigious organization in higher education. The university also has been recognized by the Carnegie Commission on Higher Education as one of the nation's leading research universities.

The University of Florida encompasses 16 colleges, five schools and more than 100 interdisciplinary research and education centers, bureaus and institutes. Students can choose majors from 102 undergraduate degree programs, approximately 200 graduate programs and 30 combined degree programs. Professional postbaccalaureate degrees are offered in dentistry, law, medicine, nursing, pharmacy, physical therapy and veterinary medicine. More than 32,000 people participate annually in noncredit courses, conferences, workshops, institutes and seminars.

The university employs more than 4,000 faculty members and approximately 7,500 administrative, professional and support staff. With operations in more than 900 buildings on 2,000 acres, the university has more than 700 buildings in every county in Florida.

President, UF Alumni Association, Inc.

Awarding of Summer 2012 Outstanding Students
Outstanding Four-Year Scholar………Colleges of Fine Arts and Liberal Arts and Sciences………… Kayla S. Adams
Outstanding Four-Year Scholar………College of Education………………………………………… Carl-Jen R. Brown
Outstanding Four-Year Scholar………College of Liberal Arts and Sciences…………………… Joseph F. Radice
Outstanding Two-Year Scholar………Warrington College of Business Administration……… Matthew C. Dowell
Outstanding Student Leader………College of Liberal Arts and Sciences………………………… Megan Maval

Awarding of 2011-2012 Teacher/Scholar of the Year………………………………………………… J. Bernard Machen
Presented to ………………………………………………………………………………………………….. Larry A. DiMatteo
Warrington College of Business Administration

Presenting Candidates for Masters and Specialist Degrees……………………………………………. Kenneth Gerhardt
Senior Associate Dean, Graduate School

Conferring of Masters and Specialist Degrees………………………………………………………….. Cheri Brodeur
Member, UF Board of Trustees

Presenting Candidates for Undergraduate Degrees…………………………………………………….. Bernard Mair
Associate Provost, Undergraduate Affairs

Conferring of Undergraduate Degrees………………………………………………………………….. Cheri Brodeur

Alma Mater ……………………………………………………………………………………………………… Ronald Burrichter
Gainesville Brass Quintet

Postlude ………………………………………………………………………………………………………… Gainesville Brass Quintet

The pre-commencement movies titled “Dream Machine” and “Voyage to Tomorrow” were created by the staff and students of the UF Digital Worlds Institute with original music by resident composer James Oliverio. For more information on these movies, which are available on DVD, please visit the Institute’s website at www.digitalworlds.ufl.edu.

DVD recordings of each commencement ceremony are available for purchase at www.ufdvd.com
Larry A. DiMatteo
Warrington College of Business Administration

Larry A. DiMatteo, the Huber Hunt Professor of Contract Law & Legal Studies, was named the 2011-12 Teacher-Scholar of the Year for the University of Florida. At UF, he has served as chair of the department of management and also has been granted affiliated professorships at the Levin College of Law and the Center for European Studies.

He is the author or co-author of some 50 publications, including seven books and 25 law review articles. He is the former editor-in-chief of the American Business Law Journal and a special issue editor of the Journal of International Trade Law & Policy.

Dr. DiMatteo received two bachelor’s degrees from the University at Buffalo, where he was inducted into Phi Beta Kappa. He earned his juris doctorate from Cornell University, his master’s of law from Harvard University, and his doctor of philosophy from Monash University in Australia.

His teaching excellence has been recognized by a series of awards. In 2011, he was the Warrington College of Business Administration’s nominee for University International Educator Award. In 2010, he received the college’s first Graduate Teacher of the Year Award and a 2010 Undergraduate Teacher of the Year Award for the department of management.

Kayla S. Adams
Four-Year Scholar

As an Outstanding Four-Year Scholar, Kayla S. Adams graduates with majors in fine arts and linguistics and a 3.9 grade point average. Her interests have ranged from sculpture and African agriculture to fireflies. In 2009, she spent a semester studying wood carving in a rural community in the Bahamas.

She completed two major research projects. One examined the ways ambiguity can be processed in both language and vision, exploring their parallels and differences. The other project was a yearlong study of perforated forms in nature. She has presented her range of work at seven art shows, including two solo exhibits.

Ms. Adams has sought to expand art into other disciplines, and she coordinated several projects between artists and scientists. She established ScArt, an official science and art student organization, and the blog Art/Science Collective. She says her most valued academic achievement was the creation of Analogous Thinking in the Arts and Sciences, a course and lecture series she developed with UF professors and one in which she served as a teaching assistant. The initiatives she fostered brought nationally recognized artists and scientists to the university. She has received numerous awards for her work in science and the arts, including one from the Howard Hughes Medical Institute.

Ms. Adams, whose hometown is Wellington, Fla., also has spent time outside of student artistic endeavors. She taught crocheter as a UF leisure instructor and partnered with second-language learners at the English Language Institute to help them improve their English. She was a mentor for the Colleagues Helping As Mentors in Public Schools (C.H.A.M.P.S.) and the Golden Door, a program for the social and financial rehabilitation of the homeless.

Ms. Adams plans to pursue a master of fine arts degree in studio art.

Carla-Ann R. Brown
Four-Year Scholar

As an Outstanding Four-Year Scholar, Carla-Ann R. Brown exemplifies dedication to scholarship. She graduates with a 3.97 grade point average and a major in elementary education.

Her undergraduate research was a case study of a student’s difficulty with letter recognition and the sounds that correspond. By developing innovative visual and kinesthetic strategies, her goal was to help the student overcome these difficulties.

Ms. Brown used the knowledge from her thesis and applied it to the classroom, incorporating these techniques during her two elementary-school internships. She was selected to present her research and lesson plans at the Florida Association of Teacher Educators Regional Crown/Panhandle Conference and Inquiry Showcase.

Ms. Brown’s honors are numerous. She is a member of the National Society of Collegiate Scholars and has been on the Dean’s List since 2008. For the last five years, she has been a member of the Red Cross and Habitat for Humanity.

Her volunteer work in Gainesville also has centered on education, as she has assisted students at J.F. Finley Elementary School enrolled in English for Speakers of Other Languages classes and those participating in the after-school program. She also volunteers in the read-aloud program at Alachua County libraries.

Ms. Brown, whose hometown is Gainesville, intends to teach fourth grade after pursuing a master’s degree in elementary education at UF. After a few years in the classroom, she plans to return to school to acquire a specialization in teaching gifted students.

The Selection Committee for Outstanding Scholars considers grade point average, curriculum, academic awards, and research projects or honors thesis. Four-year scholars must have earned at least 84 UF and have no more than minimal work at other institutions.
Four-Year Scholar

Joseph F. Radice

Joseph F. Radice entered the University of Florida as a National Merit Finalist and a Congressional Medal of Merit recipient. He majored in linguistics and psychology and graduates with a 3.96 grade point average.

His academic experience at UF has been strong and covers a range of scholarly pursuits.

Mr. Radice, whose hometown is Homestead, Fla., has as many extracurricular activities as academic ones. During an internship as a writer for the South Dade News Leader, his front-page stories covered local events and community development projects in Miami-Dade County. His community service at UF included coordinating a team of lifeguards for the March for Babies, the annual March of Dimes event on campus that raises awareness and money to fund research for sick and premature infants. He was UF RecSports Lifeguard of the Year in 2009-2010. In South Florida, he was a soccer coach for a team of children with physical and cognitive impairments, and as a camp counselor at Camp Boggy Creek in Eustis, he mentored children with terminal and life-threatening illnesses.

Teaching English as a second language has remained his priority, and Mr. Radice has been a conversation partner at the UF English Language Institute. For three years, he volunteered five hours a week as a teacher’s assistant at J.J. Finley Elementary School in Gainesville, working with children, many of whom were learning English as a second language.

After graduation, Mr. Radice plans to spend time abroad teaching English while gaining fluency in four other languages. Within five years, he hopes to begin a doctoral program in educational leadership and policy to further promote international and bilingual education domestically and abroad.

Matthew C. Dowell

Two-Year Scholar

Matthew C. Dowell is strongly dedicated to academics and to the business community. He majored in marketing and graduates with a 3.97 grade point average. He has an associate of arts degree in general business from Northwest Florida State College.

At the University of Florida, his honors thesis focused on how inefficiencies in communication between businesses and their customers are a result of a highly mobile U.S. population. He also served as a teacher’s assistant for an advanced marketing course, proctoring exams, monitoring discussion boards and holding weekly office hours. In 2011, he earned the Sam C. Fleming Scholarship based on his academic achievement.

Although he learned much of his research knowledge in the classroom, Mr. Dowell credits his business acumen to owning and operating a company. He co-founded DoBeMotors Inc., an advertising service for car dealerships in Florida and Georgia. Although the company is no longer in operation, he describes the ups and downs of running a business as a period in his life in which he does “not regret a single moment.”

Mr. Dowell, whose hometown is Niceville, Fla., has volunteered as an audio and video assistant for the Southside Baptist Church in Warner Robins, Ga., overseeing the multimedia station for the production of children’s church. His interest in technology and computing industries is one he wishes to pursue professionally. After several years of work, he will apply to the Harvard Business School’s MBA program.

Megan Maul

Outstanding Female Leader

Megan Maul, graduating with a major in economics and minors in business and leadership, is recognized as an Outstanding Female Leader for her contributions to the student body and community.

Ms. Maul knew she wanted to leave her own legacy at the University of Florida by finding ways she could improve campus life and educational experience for fellow students.

During her first semester, she became involved with the UF community through Kappa Delta sorority, Student Government and Florida Blue Key.

Ms. Maul, whose hometown is Winter Park, has left a lasting impact on the organizations. In Kappa Delta, she created an academic mentoring program to pair new members with older ones. She directed the ReConnect program through Florida Blue Key to link alumni and current members. Also, as the state affairs director for Student Government, Ms. Maul helped re-establish Gator Day in Tallahassee to promote UF colleges and their services to local politicians.

During her junior year, she took on the role of leadership chair for her sorority, which she calls her most rewarding position. Ms. Maul was able to communicate what she had learned to younger leaders and to seek opportunities on campus and the community for the younger members.

On top of her constant school and extracurricular workload, Ms. Maul held a job nearly her whole college career and dedicated more than 1,300 hours of community service to philanthropies such as Children’s Miracle Network, Big Brothers/Big Sisters and St. Jude’s Research Hospital.

After graduation, Ms. Maul will begin a management position at The Walt Disney Company.

**Diplomas**

Diplomas will be mailed to the graduate’s permanent home mailing address in late October 2012. The permanent home mailing address can be verified through “My Account” – update my directory profile at my.ufl.edu.
Caps and Gowns, An Explanation

The academic costume worn by graduating students and faculty at today’s commencement ceremonies evolved from a style of dress worn by members of guilds and religious orders in medieval times. The black academic gown is worn by individuals who have earned a degree in higher education. In addition, hoods are worn by graduate degree candidates, but not by undergraduate degree candidates.

At the University of Florida, the lining of the hood has a blue chevron on an orange background to represent the university colors. University faculty members who hold degrees from another college or university wear the colors of their alma mater.

The velvet edging on the academic hood is the color that represents the particular degree held by the wearer. Agricultural and Life Sciences and Forest Resources and Conservation share maize edging; Design, Construction and Planning and Building Construction are blue-violet; Audiology degrees have colonial blue edging; Business Administration and Accounting are drab; Dentistry is lilac; Education is light blue; Engineering degrees are represented by orange edging; Fine Arts degrees have brown edging; Journalism and Communications is garnet; Law is purple; Liberal Arts is white and Liberal Sciences is gold-yellow; Medicine is green; Music is pink; Natural Resources and Environment is antique gold; Pharmacy is olive; Philosophy is royal blue; Public Health degrees have salmon-pink edging; and Rehabilitation Counseling degrees have Nile green edging.

Distinctions among sleeves indicate the type of degree held by the wearer. A long, pointed sleeve indicates a bachelor’s degree, while a long, closed sleeve with a slit near the upper part of the arm designates a master’s degree. A round, open sleeve identifies a doctoral degree.

The doctoral costume also has velvet running on the rest of the gown, including cross bars on the sleeve. The trimming may be black or it may match the color of the velvet hood edging. Colored tassels on the degree candidates’ caps indicate a candidate’s school or college.
Alma Mater

Florida, our Alma Mater
Thy glorious name we praise
All thy loyal sons and daughters
A joyous song shall raise.
Where palm and pine are blowing,
Where southern seas are flowing,
Shine forth thy noble Gothic walls,
Thy lovely vine-clad halls.
Neath the Orange and Blue victorious
Our love shall never fail.
There’s no other name so glorious–
All hail, Florida, Hail!

Milton Yeats
